ANNUAL REPORT OF THE SELECTMEN.

TO THE CITIZENS OF THE TOWN OF MILFORD, MASS :

We herewith submit our report for the fiscal year ending December 31, 1921, with an itemized account of the expenses of the various departments under our supervision.

HIGHWAYS.

The report of the highway surveyor who has exclusive control of the ordinary repairs of highways, town ways, streets and bridges, will be found under a separate heading.

We recommend that an amount of money equal to the amount appropriated in 1921 for highways be appropriated this year, and that the highway surveyor be requested to expend part of the general appropriation on Cedar street, in order that said street may be put in a passable condition.

Your selectmen have had a conference with the Associate Commissioners, Division of Highways, Department of Public Works, relative to an allotment of money for the rebuilding of Medway street from the junction of East Main and Medway streets, to the Medway-Milford town line.

The Commissioners assured the selectmen that if the county of Worcester and the town of Milford would each appropriate the sum of ten thousand dollars they would make a state allotment of ten thousand dollars, and rebuild the road this year.

We have petitioned the county commissioners for an allotment, as required by law, and have asked for a hearing on the matter.

We recommend that the town appropriate ten thousand dollars, provided the state and county do likewise.

STREET LIGHTING.

The severe sleet storm on November 27, 28, and 29 crippled all wire service in Milford, and all commercial and street

light circuits were affected and the town was without electric lights for many days.

We made an adjustment with the Milford Electric Light & Power Co. of the bill for street lighting for the month of December, 1921.

The amount of the street lighting bill for said month was \$440.00, \$398.25 less than the regular monthly bill for street lighting when all lights are in operation.

We expect a reduction in the lighting bill for the month of January, 1922, as all the lights were not in operation during the whole of said month.

CARE OF TREES.

The severe storm above referred to did a great amount of damage to shade trees in all parts of the town, and considerable attention will have to be given to the trees in order to save them.

The tree warden has been handicapped in his work on account of the lack of funds in his department. We recommend that his appropriation for care of trees be an amount sufficient to properly do the work required.

PLANNING BOARD.

Sections 70, 71, 72 of Chapter 41, General Laws of Massachusetts, require that every city and town having a population of more than ten thousand at the last preceding National or State Census, shall create a planning board whose duties are defined by said Chapter.

We recommend that a planning board be created at the annual town meeting.

The following is an itemized report of the receipts and expenditures of the various departments.

HIGHWAYS (1921).

RECEIPTS.

By appropriation	\$40,000 00
------------------	---	---	---	---	-------------

EXPENDITURES.

Labor and team work :—

Paid labor as per warrant	. \$19,868 63

SOLDIERS' MONUMENT
Dedicated November 11, 1921

THE SOLDIERS' MONUMENT.

SUPPLE SQUARE.

In June, 1911, Charles Caruso obtained a permit to erect a monument on Supple Square, but owing to the lack of interest at that time, was constrained to defer the project.

During this past year, a committee of young Italians was selected, who elected Charles Caruso as chairman, Louis A. Marino, treasurer, and Alfred B. Caruso, secretary. In October plans were completed, and two entertainments were given at the Opera House for raising money, as a start to the drive. Then all attention was given to popular subscription, which in the following month grew to such proportions that the dream of the promoter of this project, Charles Caruso, was realized.

Our neighbors, in Hopedale, gave liberally, and the public in Milford responded heartily.

Aided by the ready permits, issued by the Honorable Board, and the steady work of the committee, Chairman Caruso and the committee were very happy for the opportunity to present to the town, a stately shaft of Milford and Westerly granite, constructed and carved by Monti & Rossi of this town.

The statue is of the best blue-white Westerly, R. I., granite. The plynth, die and three bases are of Milford light pink granite, taken from the William M. Sherman quarry.

On the front surface of the plynth is carved a palm, as a symbol of martyrs. The die is polished on all sides and on its front bears the inscription "TO OUR HEROES OF THE WORLD WAR, 1917-1918," and below this are carved the

names of the boys who made the supreme sacrifice in the World War, as follows :

John C. Ardolino,	Charles L. Fuller,
Karick Aseganian,	Michael J. Fitzgerald, Jr.,
George A. Bagley,	Shahin Garmagian,
Philip Callery,	Herbert G. Innis,
Albert Corran,	Henry A. Julian,
Matthew Calzone,	Granville R. Jones,
William P. Durkin,	Joseph Luchini,
John Dictabrook,	Louis Mazzuchelli,
Oliver L. Drew,	Patrick J. Nelligan,
Frank Esmond,	John W. Powers,
William Quirk.	

Of the three bases, the upper two are finely hammered and the lower one is rock-face. The monument is 6 feet, two inches square at the base, and stands 17 feet.

The beautifully carved statue represents a typical Dough-boy just returning victorious from battle, carrying a German helmet in his left hand, and in his right he has a regulation Army rifle. The whole figure stands erect in a peaceful but determined pose.

A sunny and pleasant November 11th, 1921, marked the day of the Dedication and parade. At 1 o'clock the plans of the committee were brought to happy fruition when the great parade formed on East Main street, corner of Cedar, and started its march along the designated route, which was well decorated with flags and bunting on the stores and business blocks, and in many cases on houses. The parade terminated at the monument, where a simple, though impressive dedication was held, Town Solicitor Alfred B. Cenedella, presiding.

Chairman Cenedella, after appropriate remarks as to the great events of the day, gave signal for Master Philip Callery, son of a dead hero, to unveil the statue that had been draped in a United States flag, and the son of his hero soldier did his part well.

Then followed the introduction of speakers, including Commander George A. Barry, of the American Legion, Town

Treasurer John E Swift, Atty. Saverio Romano of Boston, and the orator of the day, Gen. Charles H. Cole.

Mr. Cenedella presented the monument to the town, representing the committee, and Chairman John H. Egan, of the Board of Selectmen, accepted the same, with appropriate remarks.

Then came a salute by the firing squad of the Powers Post, A. L., and taps sounded by the Post band buglers.

The committee and its officers, feel justly satisfied that they have supplied Milford with a magnificent supplement to its adornment, and a welcome addition to its art treasures.

JOHN H. EGAN,
FRANCIS G. KERR,
JOHN H. CUNNIFF,
Selectmen of Milford.

Report of Highway Department, 1921.

TO THE HONORABLE BOARD OF THE TOWN OF MILFORD :—

Gentlemen : I hereby submit my report as highway surveyor of the town. The amount of work done on the different streets is as follows :—

STREET REPAIRING.

Fruit street extension, 200 yards gravel and oiled.

Lee street, 160 yards cinders.

Water street, 100 yards cinders.

Sumner street, 170 yards gravel.

Depot street, 120 yards gravel.

Spruce street, 500 yards cinders.

Genoa avenue, 50 yards cinders.

Mt. Pleasant street, 30 yards cinders.

West Maple street, 75 yards cinders.

Westbrook street, 50 yards cinders.

West Spruce street, 35 yards cinders, scarified and rolled.

Hollis street, 110 yards cinders.

Chapin street, 120 yards cinders.

Claffin street, 48 yards cinders.

Highland street, 58 yards cinders.

Fountain street, 120 yards cinders, 24 yards gravel.

Cedar street, 360 yards gravel and scarified twice.

Dilla street, 150 yards gravel.

Camp street, 55 yards gravel.

Fruit street, 58 yards gravel.

School street, 25 yards gravel, resurfaced.

Congress street, 10 yards stone chips.

Beaver street, 215 yards gravel.

Birch street, 60 yards gravel.

North Bow street, 80 yards gravel, 150 tons trap rock, water bound surface.

Medway street, 250 yards gravel, 136 yards cinders. This road is a very hard one to keep in condition. It has been patched from East Main street to railroad crossing, scarified and rolled twice; 2 carloads tarvia B.

West Fountain street, 65 yards cinders.

Spring street, 155 yards gravel and resurfaced with two loads of tarvia B.

Winter street, 340 yards gravel, 2000 gallons tarvia B.

Grove street, 30 yards gravel, 20 yards cinders.

Central street, 125 yards gravel, 80 yards cinders, from rubber shop bridge to Beach street.

Oliver street, 50 yards gravel.

East Walnut street, 72 yards gravel.

Fairview road, 60 yards gravel.

Orchard street, water bound surface, 100 ton broken stone, 30 yards gravel.

South Main street. This road was widened from Fruit to Courtland streets; 1400 gallons tarvia, 200 tons trap rock.

Pine street, 200 tons broken stone, 1200 gallons of asphalt.

Purchase street, 800 yards gravel, 110 yards cinders, scarified and resurfaced with gravel from Dilla street to stand pipe.

Silver Hill street, 40 yards gravel.

East Main street, 200 tons trap rock, tarvia bound from Cook street to Supple residence, and from Cedar to Hayward streets.

Cherry street, 75 yards cinders.

Maple street, 140 yards gravel.

Parkhurst street, 20 yards cinders.

Prospect street, 30 yards gravel.

West Walnut street, 10 yards cinders.

Fayette street, 10 yards gravel, scarified.

Haven street, 65 yards gravel.

Freedom street, 20 yards gravel.

Park terrace, scarified and rolled.

East street, 84 yards gravel.

Pearl street, resurfaced with tarvia B.

PATCHING.

Main street. Patched with $\frac{1}{2}$ inch trap rock and tarvia, resurfaced with tarvia and sand from Medway road to Hopedale line.

West street. 8 tons trap rock and tarvia.

Water street. 14 tons trap rock and tarvia.

School street. Patched from Spruce to Dilla street; $\frac{1}{2}$ ton trap rock.

Central street. 18 tons $\frac{1}{2}$ inch trap rock and tarvia.

Pearl street. 16 tons $\frac{1}{2}$ inch trap rock and tarvia.

North Bow street. 24 tons $1\frac{1}{4}$ inch trap rock and tarvia.

Medway road. Patched from East Main to end of tar road. 40 tons trap rock and tarvia.

Church street. 3 tons trap rock and tarvia.

Congress street. 10 tons trap rock and tarvia.

South Bow street. 28 tons trap rock and tarvia.

Spring street. 24 tons trap rock and tarvia.

Daniels street. 26 tons trap rock and tarvia. This street was then resurfaced with tarvia B and sand.

Depot street. 4 tons trap rock and tarvia.

Forest street. 3 tons trap rock and tarvia.

Park street. Resurfaced, 500 gallons asphalt, 50 tons $\frac{1}{2}$ inch trap rock.

Grant street. 2 tons trap rock and tarvia.

Emmons street. 8 tons trap rock and tarvia.

Mechanic street. 4 tons trap rock and tarvia.

RESURFACED WITH TARVIA B.

School, Pearl, Purchase to Dilla, East Main and Church streets.

SIDEWALKS.

Bear Hill. 32 yards cinders.

West Spruce street. 24 yards cinders.

Madden avenue, Lee street, Prentice avenue, Fruit street and West Spruce street sidewalks were all repaired with cinders.

Hayward street. Repaired with stone dust from crusher.

SIDEWALKS PATCHED.

Congress, North Bow, South Bow; West Pine, South Main, Forest, Water and West streets.

Jefferson street. Curbing reset under difficult circumstances.

This was also resurfaced with 1100 square yards concrete.

Spruce street. Reset 1000 feet curbing.

West Pine street. Set 221 feet new curbing.

Spring street. 750 feet gutter repaved and stone bunters reset.

Pleasant street. 886 feet of cement curbing set.

SOUTH MAIN STREET.

This road was widened from Hugh Ray's to the Hixon residence; blasted and removed 45 cubic yards stone; 1800 feet cement curbing laid.

BRIDGES REPAIRED.

Fisk Mill, Mellen street, Green street, Thayer street, Fruit street, Central street, Cedar street, Oliver street and Taylor street.

The North Purchase reservoir was re-covered.

During the year the department purchased a $2\frac{1}{2}$ ton Mack truck which has greatly increased the daily work of the department. A new motor and bins were also bought for the crusher and the same remodeled. On running a short time, an accident happened to the shaft which crippled us muchly.

I take this opportunity to thank the board and the citizens for their co-operation during the past year.

Respectfully submitted,

JOHN P. CALLERY,
Highway Surveyor.

TREASURER'S REPORT.

JOHN E. SWIFT, IN ACCOUNT WITH THE TOWN OF MILFORD, MASS., AS TREASURER.

Your Park Board is gratified to have gone through the year and kept within its allowance, and is indebted to the

various societies who have used the park. We cannot give too much praise to every one who has contributed and made it possible to carry on the work.

Your parks need more liberal appropriations to maintain. Kindly note in the first two items of expenses there is a sum of \$414.00 necessarily spent, which is slightly more than half of the appropriation. This coming year, there will be need of a substantial sum to put the trees into a livable and safe condition. Moreover, there is urgent need of sanitary conveniences for the use of the large gatherings on holidays. In addition, a space should be provided that can be readily overflowed to furnish a skating surface for our children. New seats should be provided for all your parks.

Respectfully submitted,

JOHN F. QUINLAN, Chairman,
MARTIN J. WALLACE,
FRANK E. NORCROSS, Secretary.

Report of Inspector of Animals.

TO THE HONORABLE BOARD OF SELECTMEN:—

GENTLEMEN:—As Inspector of Animals I have investigated several suspected cases of contagious diseases both in horses and cattle during the past year and found only three (3) of them positive. The annual inspection proved that the health and sanitary condition surrounding dairy animals were satisfactory.

I would suggest, that while our particular district has been fortunate in being free from rabies, there is, nevertheless, cause for precaution. Owners of dogs would do well to keep their dogs on their own premises as much as possible, and thus avoid the menace of the stray dog that generally causes the outbreak. If your animals act at all suspicious notify the proper authorities at once thereby avoiding a general outbreak.

Respectfully Yours,

DR. B. F. HARTMAN,
Inspector of Animals.

		<hr/>
Unexpended balance, January 1, 1922		\$15 51

In closing this report we ask the voters to consider these facts: Our unpaid bills for the past year in both departments total \$5,492.07, while owing the town is a total of \$8,750 53— in other words, in a year of unprecedented business depression and idleness, and with more calls for aid than at any other time in the history of this department, we actually finished the year with a credit balance of \$3258.46. This is all the more remarkable when other towns the size of Milford have been obliged to secure additional appropriations to carry on their departments.

At the town home many needed repairs were made. Some of these were: New floor in horse barn; beaver board ceiling in men's dormitory and other rooms; new employees'

III

dining hall; one store-room remodeled; men's dormitory, bath room, store room and floors in women's quarters painted; old lead pipe to spring replaced with 500 feet of new 1-inch iron pipe; plumbing throughout the house renovated; new hen house erected; old hen yards torn down and rebuilt; minor necessary repairs made. A new auto truck was also purchased. With the exception of a special appropriation of \$500 all the above work was paid for out of the regular appropriation.

We invite a careful perusal of the above report and would ask citizens to inspect the town home, as in this way only can the work done be appreciated.

Deficit transferred to construction account . \$2,099 08

The above figures of income and expenditure for the year 1921 are divided, as is customary, into a construction and maintenance account. No sharp line can, however, be drawn this year in framing these accounts, as the work done at the

disposal plant in improving under drains and in raising the level of the sludge bed so interferred with regular maintenance and so greatly increased the expense of removing weeds from the filters that it has been impossible to accurately determine just what part of the labor account should be charged to construction and what to maintenance.

It will be noted, however, that, as has been the case for more than five years, the maintenance account shows a deficit which has been met by a draft from the balance of the construction account. Since 1917 the disposal plant has been overloaded and the successful operation of the filters has become increasingly difficult. As will be shown by the report of our engineer, submitted herewith, ten thousand (10,000) people are now connected with the sewers, or fifty per cent (50 per cent) more than the population which the present filters can properly care for. This overloading of the plant has greatly increased the cost of maintenance and has now reached the point where an extension of the disposal facilities is absolutely necessary, if continued discharge of raw sewage into the river is to be avoided.

The work done on the present field during the past year has included the placing of outlet weirs on the settling tanks so as to increase the depth and capacity of the tanks, the relaying of a considerable part of the under-drain system and the cleaning of the remainder, and the refilling with sand of the sludge bed to the elevation of the original surface. By these improvements the original capacity of the field should be regained, but this capacity is well below the present flow of sewage, and it must be recognized that the work done during the past year did not by any means do away with the necessity of enlarging the plant. The board has for several years deferred making a definite recommendation because of the high cost of construction, but prices of material and labor have now substantially dropped, and we believe the time has come to undertake the necessary extension of the disposal plant. Furthermore, by requiring in the contract that preference shall be given to citizens of Milford, this extension can be made the means of providing employment for men now out of work.

We submit herewith a report from our engineer and, in accordance with his conclusions, we recommend that the town appropriate the sum of \$60,000.00 for the construction of additional disposal works

The following figures indicate the condition of the assessment account:—

Total amount certified 1908 to December 31, 1921	\$102,243 09
Total amount paid, not including interest	\$97,574 02
<hr/>	
Balance of assessments not paid	\$4,669 07
Total interest accruing 1908 to December 31, 1921	\$10,223 38
Total interest paid to date	\$8,842 29
Unpaid interest	\$1,381 09
Total outstanding assessments and interest	\$6,050 16
No assessments were certified in 1921.	

The total present number of connections is 1355, 30 having been added during the past year.

FRANK P. DILLON,
LOUIS P. PRATT,
ALFRED F. MARTIN,
Sewerage Commission.

Report to Sewerage Commission on the Enlargement of the Sewage Disposal Works.

February 15, 1922.

SEWERAGE COMMISSION, MILFORD, MASSACHUSETTS.

DEAR SIRS:—In accordance with your instructions we are submitting the following report on the necessity of additional disposal works.

CONCLUSIONS.

For your convenience we will at once set down our conclusions, which are as follows:—

That the plant has been seriously overloaded for five years and the present load is from 40–50 per cent in excess of the reasonable capacity of the works.

That the discharge into the river of a large quantity of untreated sewage will be unavoidable until additional filters are constructed, and that an enlargement of the disposal plant should be at once undertaken.

That to provide the increased capacity—filters of coarse stone can be constructed at about two-thirds the cost of additional sand filters and that the approval of the State Department of Health should be asked of the plans, herewith submitted, of a trickling filter preceded by sedimentation in two-story tank—the additional plant to be sufficient for 5000 people and to cost \$56,000.00.

That permanent carriers should be constructed in the present sand beds at a cost of \$3,000.00 and that a total appropriation, by the town, of \$60,000.00 should be requested for the necessary improvement and enlargement of the disposal works.

THE CAPACITY OF THE PRESENT PLANT, AS ORIGINALLY ESTIMATED.

The present plant, consisting of four settling tanks of a total capacity of 300,000 gallons and 9.4 acres of sand filters was estimated in our original report of 1906 to be capable of

treating 800,000 gallons of sewage per day, and to be probably sufficient for the requirements of the town for ten years, or until 1916. It is, therefore, of interest to inquire as to the present flow of sewage.

FLOW OF SEWAGE IN 1921.

Observations made during the past year show that during the spring and early summer the discharge varied from a minimum of 1,000,000 gallons per day to a maximum of 2,900,000 gallons per day; that from June 1st the flow gradually decreased from 1,000,000 gallons per day to a minimum of 450,000 gallons per day on September 15th, after which date it again increased to approximately 1,000,000 gallons per day in December. Because of extremely low rainfall in August and September, the minimum flows recorded during the late summer months are undoubtedly less than under average conditions. The maximum observed flow of 2,900,000 gallons per day was noted at 9 A. M. on May 1st, following a rainfall which exceeded 3 inches in the preceding 24 hours. From this peak the flow gradually decreased to 1,650,000 gallons per day on May 5th. The maximum of May 1st is undoubtedly exceptional, but the observations indicate that the discharge will frequently approach 1,750,000 gallons per day during the spring months. As a general summary, it may be fairly concluded that, with present connected population, the flow will approximately average 1,000,000 gallons per day during the winter months; 1,250,000 gallons per day during the spring months, and 750,000 gallons per day during the summer and autumn. As will appear later, these average flows are equal to 100, 125 and 75 gallons per capita per day for the respective seasons.

The records also indicate that following rainstorms these averages, as just stated, may be increased by amounts varying from the insignificant to more than 1,000,000 gallons per day. It is impossible as yet to determine the cause of these increased flows following rainfall. In some storms the quick rise suggests that roof or surface drains have been connected with the sewers; in the case of other storms the response is

too slow to be thus accounted for, although quicker than can be reasonably explained by leakage due to rising ground water. It is true that, following the observations of last spring, some open inspection holes, which admitted ground water from the underdrains to the sewer, were discovered and closed, but a further investigation under high spring flow conditions is necessary to determine whether there is direct entrance of rain water from roof and surface drains. It is believed that, by such an investigation, it may be found possible to reduce the peak flows which follow rainfall, but even, if the peaks were eliminated, the amount of sewage reaching the plant during six months of the year will range from 25 to 75 per cent in excess of the capacity of the plant, as originally estimated.

POPULATION CONNECTED WITH THE SEWERS.

A more logical way of estimating the capacity of filters is on the basis of connected population rather than quantity of sewage. Accordingly an analysis of the 1921 list of sewer connections has been made with the following results: —

	Number of People.
Resident population in connected premises (based on 1920 census)	9,420
Floating population in hotels, boarding houses, etc.	100
From 22 connections in Hopedale	150
Factory operatives and workers in business district who reside outside sewer dis- trict	250
Total present connected population	9,920

In like manner the connected population has been approximated for each of the years from 1913 to date as follows:

	Connected Population	Connected Population Per acre of filters.
1913	7050	750
1914	7600	820
1915	8200	880
1916	8650	930
1917	8850	950
1918	9100	980
1919	9700	1040
1920	9800	1055
1921	9900	1070

CAPACITY OF PRESENT FILTERS ON BASIS OF CONNECTED POPULATION PER ACRE OF SAND AREA.

The following table shows the yearly average of analyses of the disposal plant effluent from 1911 to 1921 (Records of State Department of Health)

	Ammonia					
	Total					
	Free	Albuminoid	Chlorine	Nitrates	Nitrites	Iron
	(Parts per 100,000)					
1911	.72	.0357	10.13	1.1683	.0056	.0236

The progressive deterioration of the effluent—as shown by the increasing ammonias and iron, and decreasing nitrates—indicates that the load on the filters reached its safe limit in 1913. This load, by reference to the table of connected populations, is found to have been in that year 7,050 people, or 750 people per acre. From the record of the Milford plant

it, therefore, appears reasonable to conclude that 750 people per acre may be accepted as the safe capacity of the present sand beds, or of any addition thereto constructed of the same material.

The present situation then is that the existing plant with capacity sufficient for 7,000 people is overloaded 42 per cent by a connected population of 9,990 people—making maintenance difficult and costly, and rendering it necessary to discharge substantial quantities of untreated sewage into the river.

Since 1917 the State Department of Health has yearly called attention to this overloaded condition of the disposal works and without question—unless enlargement is immediately undertaken—the town is facing the responsibility of seriously contaminating the river to the detriment of downstream proprietors—including those communities which draw water from wells in the valley of the stream.

ENLARGEMENT OF THE DISPOSAL WORKS BY CONSTRUCTION OF ADDITIONAL SAND FILTERS.

The present plant is of the type, which for many years has been accepted as the standard practice in Massachusetts—the essential features being sand filters and the intermittent application of the sewage after preliminary sedimentation. The high degree of purification possible, the simplicity of operation and the availability of suitable natural soils in this state are responsible for this quite general adoption of sand filters in the treatment of sewage. By this method, under favorable condition and proper control, a higher degree of purification can be effected than in any other practicable way. Also, where the sand can be used in natural position, the cost has compared favorably with that of other available methods.

It is natural, therefore, in undertaking the enlargement of the present disposal works to assume that the project will simply involve the building of additional sand beds. The settling tanks of 300,000 gallons capacity are large enough to provide adequate sedimentation for some years to come. The distributing system, radiating in four lines, suggests at once

the construction of four additional beds on the north, and another four on the south of the present field, in order to balance the filter units in reference to the dosing tank. With the new filters made the same size as those now in use, the additional area thus provided will equal 4.82 acres, or sufficient for 3,600 people, at 750 people per acre. The sand, as shown by numerous test-pits (see plan and sections) is of the same character as in the present field, the samples varying from an effective size of .04 m. m. to .20 m. m. and approximately averaging .12 m. m. with a uniformity coefficient of 2.5. As a general statement the material is finer than is desirable, and 750 people per acre is probably as high a rate as can be justified. On this basis the eight additional beds together with the present field will provide for 10,000 people, or 700 people in excess of the population now contributing sewage. It is obvious that this is the minimum extension of the plant which can be considered.

The estimated cost of this increased area of sand filters is as follows:—

GENERAL WORK.

Clearing and grubbing . . .	\$150 00	
Loaming and seeding embankments . . .	300 00	
Excavation and grading . . .	27,600 00	
	<hr/>	\$28,050 00

UNDERDRAINS.

Excavation	\$2,750 00	
Pipe and specials	1,110 00	
Laying	5,179 00	
Manholes	154 00	
	<hr/>	\$9,193 00

DISTRIBUTING SYSTEM.

Excavation	\$ 500 00	
Pipes, gates, etc.	1,502 00	
Laying	387 00	
Gate chambers, outlet abutments, etc.	663 00	
Carriers	1,600 00	
	<hr/>	\$4,652 00

DRAIN FOR BROOK CHANNEL.

Excavation	\$ 800 00	
Segmental tile block drain (36 in.)	3,750 00	
Masonry abutments	120 00	
	<hr/>	\$4,670 00
Re-location of river		1,300 00
		<hr/>
Total		\$47,855 00
Add 20 per cent for land, engineering and con- tingencies		\$9,573 00
		<hr/>
Total		\$57,438 00

This total cost—equivalent to \$15,700.00 per 1000 people is much higher than has obtained in similar work in the past. The explanation is found in the fact that topography is not favorable—involving heavy cutting in the northern line of beds and the building of the southern line almost entirely by filling with sand transferred from the northern area. The cost is also substantially increased because of the necessity of constructing a 36-inch drain to provide a water way for the brook.

No more economical layout appears to be possible for filters constructed adjacent to the present plant at an elevation which will permit the application of sewage to the additional area by the present automatic dosing apparatus, or through an extension of the present distribution system. A saving of some \$6,000.00 can be made, if the filter surfaces are placed at a higher elevation and the advantages incident to automatic intermittent dosing are disregarded, but this saving would be largely offset by the necessity of greater attendance in shifting gates by hand. Further an examination of the territory along the river has made evident that there is no site (between the present plant and South Milford) where additional sand filters can be constructed more economically than adjacent to the present plant. In other words, the construction of an additional line of beds on the north and south of the present plant, as already described, is apparently the cheapest

available method of providing increased disposal capacity—if sand filtration is to be used.

ENLARGEMENT BY CONSTRUCTION OF IMHOFF-TRICKLER PLANT.

The excessive cost per unit of capacity of additional sand filters, and the undesirable fineness of the sands available, has led to the consideration of the method of treatment in successful use at Fitchburg, Mass., Mansfield, Ohio, Columbus, Ohio, Baltimore, Md., and many other places. In these plants, instead of a fine filtering medium, such as sand, crushed stone ranging from 1 to 2 inches in size of particle is used, and the sewage, applied by spraying from nozzles, trickles through the filter and by the action of bacteria, lodged on the stone and working in an ample supply of air, is rendered non-putrescible although not purified to the degree possible with sand filters under favorable conditions. The economy of the method lies in the higher rates at which the tricklers are operated and which vary from 10 to 40 times the rates possible with sand filters. It is obvious that the relative economy in any particular case depends upon the rate adopted as feasible for the sand and the trickling filter.

Preliminary treatment to remove the heavier suspended matter from the sewage before application to the filter is necessary, and clarification of the trickler effluent by settling tanks is also generally desirable.

The plans and estimates, which have been prepared for this method of treatment, are based on provision for 5000 people, or at 75 gallons per capita, for a normal summer and autumn flow of 375,000 gallons per day.

The plant includes a two-story settling tank, dosing tank, a trickling filter, a settling tank for the filter effluent, and sludge beds. The location proposed is adjacent to the river at the northeastern corner of the present disposal field, and one-third mile distant from the highway to South Milford. The total area occupied is about $1\frac{1}{2}$ acres.

It is planned to lay a branch outfall of 15 inch vitrified pipe and 10 inch and 12 inch cast iron pipes to the new plant from a diversion chamber to be cut into the present main

sewer. The 10 inch and 12 inch pipes will operate an inverted siphon and are used to avoid unnecessary embankment.

The settling tank is of the two-story or Imhoff type, the sewage flowing through the upper compartment and the settled solids passing through a bottom slot into the digestion chamber below. One advantage of this two-story arrangement is that the sewage does not come in contact with the accumulated stale sludge, and the tank effluent is, therefore, fresher and less liable to create trouble by odors when sprayed from nozzles in its application to the filter. The effluent of the present settling tanks could not, in our judgment, be sprayed without serious danger of nuisance. Another advantage of the deep pyramidal-bottomed settling tank is the improved digestion of the sludge and better control of its discharge and drying on the sludge beds.

The tank, as planned, is 43 by 27 feet in horizontal dimensions and 26 feet deep. The settling chamber will provide a $2\frac{2}{3}$ hours period of retention for a flow of 375,000 gallons per day, or 2 hours for a flow of 500,000 gallons per day. The sludge compartment is designed on the basis of $2\frac{1}{4}$ cubic feet per person for 5000 people, measuring from a point 18 inches below the level of slot. The horizontal free surface for the escape of gas is equal to 25 per cent of the total area of the tank. Provision is made for reversing the flow through the settling chamber and an 8-inch sludge pipe will make possible the discharge of sludge under ample head on the adjacent sludge beds, the elevation of the surface of which is 10.5 feet below high water in the Imhoff tank. Pipes for flushing the pyramidal bottom of the digestion chamber and the sludge outlet pipe with water under control are also provided.

The sludge beds have a depth of 12 inches of cinders and an area of 5,000 square feet, or one square foot per person for 5,000 people. This area and the volume of the digestion chamber has been made particularly liberal.

From the Imhoff tank the effluent flows to the dosing tanks, two in number, each of 1,750 gallons capacity, or sufficient for $6\frac{2}{3}$ minutes flow at rate of 375,000 gallons per day,

these tanks to discharge alternately through 14 inch, 10 inch and 6 inch cast iron pipes and 120 spray nozzles spaced on the filter, as shown on plan.

The trickling filter .28 acre in area, with a depth of 6 feet, is to be constructed of hard crushed stone screened between 1 and $2\frac{1}{2}$ inches. The area proposed is based on providing for 5,000 people at a rate of 3,000 people per acre per foot of depth, and in quantity is equivalent to a rate of 1,350,000 gallons per day per acre of average summer flow of sewage at Milford.

The total difference in elevation between water level in the Imhoff tank and the average summer level in the river is 14 feet, and with due allowance for the necessary head in dosing the filter and in flowing through the tanks and connecting piping, the depth of six feet adopted for the trickling filter is the maximum possible, unless the sewage is to be elevated by pumping. By some expenditure the river channel can be cleaned out so as to lower the summer flow line approximately one foot, but in our judgment, this expense cannot be justified at the present time.

The estimated cost of the Imhoff-trickler plant is as follows:—

BRANCH OUTFALL SEWER:—

Excavation and embankment . . .	\$ 390 00
Piping and laying . . .	1,129 00
Diversion chamber and manholes . . .	600 00
	————— \$ 2,119 00

IMHOFF TANK:—

Excavation . . .	\$3,375 00
Concrete masonry . . .	8,062 00
Piping, valves, stop planks . . .	625 00
Imhoff royalty . . .	250 00
	————— 12,312 00

DOSING TANK:—

Excavation . . .	\$ 15 00
Concrete masonry . . .	700 00

Dosing apparatus, etc.	\$2,500 00	
Miscellaneous	25 00	
	<hr/>	\$3,240 00
TRICKLING FILTER :—		
Excavation	\$1,250 00	
Concrete masonry walls	2,875 00	
Floor system	4,230 00	
Distributing system, nozzles	3,750 00	
Crushed stone	11,200 00	
	<hr/>	23,315 00
SECONDARY TANK :—		
Excavation	\$1,000 00	
Concrete masonry	1,300 00	
Piping, valves, etc	250 00	
Sludge and water pumps and piping	1,500 00	
	<hr/>	4,050 00
SLUDGE BEDS :—		
Excavation	\$950 00	
Filter material	620 00	
Underdrains	200 00	
Concrete masonry	150 00	
Stop plank, guides	100 00	
	<hr/>	2,020 00
Miscellaneous piping		629 00
General grading, seeding, walks, etc.		1,150 00
		<hr/>
Total		\$48,835 00
Add 15 per cent for land, engineering and con-		
tingencies		7,325 25
		<hr/>
Total		\$56,160 25

The addition of 15 per cent to the summation of the detailed figures instead of 20 per cent, as in the case of sand filters, is due to the lesser area of land required for the trickler plant.

The preceding estimate of \$56,160.00 for works designed

to provide for 5000 people is equivalent to \$11,200.00, for 1000 people, which compares with \$15,700.00 per 1000 people, estimated as the cost of additional sand filters. It, therefore, appears that the Imhoff trickler method of treatment can be provided for approximately two-thirds the cost of additional sand filters under the conditions to be met at Milford, or, stated differently, an Imhoff-trickler plant to care for the sewage of 5000 people, or adequate for the probable disposal requirements of eight years in the future can be constructed for \$56,000.00, while sand filters to care for 3600 people, or sufficient for the requirements of only three years in the future, will cost \$57,400.00.

The Imhoff-trickler method of treatment should also prove substantially cheaper in maintenance. The average cost per capita of connected populations at Fitchburg and Brockton for the past five years have been less than two-thirds of the corresponding figures at Milford for sand filters.

As has already been stated, the degree of purification possible by trickling filters is materially less than that obtainable by sand filters under favorable conditions. In actual practice, however, as indicated by comparison of plants of the two types in Massachusetts, the difference is not so outstanding, and it is of interest to note that while the average reduction of free ammonia by 24 sand filter plants for the five years from 1915 to 1919 was 67 per cent—the corresponding figures for the trickling filter plants at Fitchburg and Brockton was 70 per cent. Again making comparison on the basis of albuminoid ammonia, the trickling filters removed 77 per cent as compared with 87 per cent for the sand filters. The practical question, however, in the problem under discussion is whether Imhoff-trickler treatment will produce an effluent sufficiently purified to permit its discharge into the river without detriment to the interests of downstream proprietors, or, better stated, whether the Imhoff-trickler plant, as planned, will prove a better all-round instrument for the protection of the river than such additional area of extremely fine sand filters, as the town at the present time can afford to construct.

In our judgment, the relatively unfavorable conditions for further extension of sand filtration and the substantially lower cost, both in construction and maintenance, of trickling filters points to the advisability of adopting this latter method in the necessary enlargement of the disposal works.

We therefore recommend that you request the approval of the State Department of Health of the plans, herewith submitted, for an Imhoff-trickler plant.

The improvement of the present works carried out during the past year included the relaying of a considerable part of the underdrain system, the building of new outlet weirs in the settling tanks, so as to increase the effective storage capacity, and the refilling of the sludge bed to the original elevation. The replacement by some permanent construction of the wooden carriers, which served to distribute the sewage over the sand beds for ten years and then rotted to the point necessitating removal, remains to be done. The estimated cost of this necessary work is \$3,000.

We, therefore, recommend that you request the town to appropriate the sum of \$60,000.00 for the enlargement of the disposal plant, and the construction of carriers in the present beds, and that steps be taken to obtain whatever legislation is required to make this appropriation possible.

Respectfully submitted,

F. A. BARBOUR.

REPORT OF THE CHAIRMAN OF THE BOARD OF Trustees of Milford Town Library.

The outstanding features of the fiscal year just ended were :

The unexplained increase in circulation, especially in the departments of the lighter fiction and the juveniles. This increase almost imperceptible in the earlier months of the year made itself more noticeable during the Spring season and reached its height about the middle of November.

The exorbitant, almost prohibitive, prices demanded for standard and current fiction and the consequent limitation of our program of expansion as originally mapped out.

The imperative need for immediate replacement of a large number of the more popular of the juveniles, which have been in constant demand and which, although rebound time and again, seem never to lose their popularity with the young folk who daily swarm our reading room.

This report would not be complete without mention of the purchase by the Trustees of the picture of the old Town Hall, date about 1841, which will soon grace the wall of the reading room as a companion picture to the ancient Bear Hill view.

Much credit must be given the librarian and his assistant for their competent handling of the recall, re-numbering and re-issuing of our card system.

It seems unjust to delay the payment of bills contracted in November until the re-appropriation of the dog tax in March. Yet at present such is the case.

Patrons of the library will regret to learn that Mrs. Evelyn Cooke, who has for twenty-one years assisted in the reading room, has resigned her position. She is succeeded by Miss Madeline Kynock.

Respectfully submitted,

P. E. SWEENEY,
Chairman of the Board of Trustees.

REPORT OF THE LIBRARIAN.

TO THE TRUSTEES OF THE TOWN LIBRARY:—

Gentlemen:—I submit the sixty-third annual report of the Library for the year ending December 31, 1921.

The Library was open 303 days. Circulation for the year was 44,203 volumes, an increase of 8,892 volumes over the previous year, and the largest circulation ever recorded. Largest daily circulation, February 26, was 365 volumes. Smallest daily circulation, September 30, was 23 volumes. Average daily circulation was 146 volumes. Amount received from fines was \$124.30. Notices sent delinquents, 288; number of new cards issued, 382; visitors to the reading room, 8,234.

The Library contains as per catalogue, 22,099 volumes, 125 having been added during the year; by purchase 91, by gift 34. The donors were State of Massachusetts, 9 volumes; U. S. Government, 3 volumes; American Library Association, 3 volumes; Library of Congress, Smithsonian Institute, Interstate Commerce Commission, Y. M. C. A., National Lamp Works, McBeth-Evans Glass Company, Anti Defamation League, Foreign Policy Association, Girl Scouts, Inc., Miss Annie Daniels, Cure H. Hamlin, Oscar Newfang, J. A. V. Tuck, Herman Bernstein, A. Avilla, Mexico, Belgium Ambassador to the United States, Arthur Simons, L. F. Bullard, Claudia P. Murphy, 1 volume each.

The circulation of the various departments is shown by the following table:—

CIRCULATION.

Nov. 29 to Dec. 19. Apples, 100 photographs.

Dec. 27 to Jan. 16. Western Front, drawings by Muirhead Bone. Part II.

Respectfully submitted,

NATHANIEL F. BLAKE,

Librarian.

REPORT OF THE BOARD OF HEALTH.

TO THE SELECTMEN AND CITIZENS OF MILFORD :—

April 1, 1921, the board of health established the Tuberculosis Dispensary in the Thayer building. It is open on Tuesday from 3.30 to 4.30 P. M. and Friday evening from 7.30 to 8.30, with a doctor and nurse in attendance. It has been our aim to instruct and advise those who have any lung weakness how to care for themselves and protect others with whom they come in contact. The average attendance has been five a week, which we feel is due in a large measure to the co-operation of local physicians in reporting cases. The energetic work of the nurse has resulted in many suspicious and incipient cases being examined at the dispensary, and obtaining early admission to hospitals.

An outbreak of typhoid fever occurred in September, shortly after the first case was reported on the 24th, and the total number of Milford patients was 11. There were two cases from Upton in our hospital which had no connection with the Milford outbreak. The cause as determined was due to bottle infection. The milk route on which the cases occurred was immediately suspended and pasteurization ordered, after the plant had been inspected and approved by the State Health authorities.

If it were possible to insist on pasteurized milk for public use milk born diseases would be prevented as diphtheria, scarlet fever, typhoid, bovine tuberculosis, and summer diarrhoea so prevalent in bottle-fed infants. In the near future let us hope that the Legislature will enact a law for pasteurized milk, or some up to date milk producer in our district have an ideal plant where milk will be pasteurized and cans and bottles steam sterilized.

A recent act of the Legislature called for inspections and

registration of bakeries, by the board of health, and also the licensing of soda water manufacturers.

REPORT OF INSPECTOR OF MEATS AND PROVISIONS.

Milford, Mass., Jan. 18, 1922.

TO THE HONORABLE BOARD OF HEALTH :—

Dear Sirs :—The following is my report of the inspection of meats and provisions for the year 1921 :—

There were slaughtered during the year the following: Cattle 440 ; calves 1816 ; sheep 25 ; pigs 476. These were inspected and acted upon according to law.

I have inspected markets and pedlar's wagons from time to time, and with few exceptions found them complying to the law.

JAMES J. FULLUM,
Inspector of Meats and Provisions.

JOHN E. HIGGISTON,
MAURICE J. QUINLAN,
F. H. LALLY, M. D.,
Board of Health.

Report of the Chief of Police.

TO THE HONORABLE BOARD OF SELECTMEN OF MILFORD, MASS.
Gentlemen :—

I have the honor to submit a report of the duties performed by the Police Department for the year ending December 31, 1921.

Recovered stolen property	\$2,000 00
Number of lost children restored to parents	11
Sick and injured persons assisted	8
Buildings found open and secured	27
Cases investigated	39
Aiding out-of-town officers	50

Nine regular patrolmen are employed by the town at different times during the day and night.

One officer, 61 hours per week.

One officer, 56 hours per week.

One officer, 37 hours per week.

One officer, 37 hours per week.

One officer, 21 hours per week.

One officer, 21 hours per week.

One officer, 28 hours per week.

One officer, 28 hours per week.

One officer, 2 hours per week.

My duties as Chief of Police during my first year in office were featured by the pleasant and hearty co-operation that was extended to me by the Selectmen, the officers of the police de-

partment, and the citizens at large, all of whom I want to sincerely thank.

I urgently recommend that a permanent police force be established, because a town of this size certainly should have one and the additional money required for this purpose is insignificant when compared with the protection and security it will afford to the lives and property of our townspeople.

Respectfully submitted,

ERNEST E. OBRIEN,
Chief of Police.

IN MEMORIAM.

On August 17, 1921, the town was saddened by the sudden and unexpected death of Michael Nolan, a member of the police department for a period of years.

We lament the loss of one who faithfully and efficiently performed at all times his duty as a member of the police department of this community, and look to his example as the star to guide us in the performance of our police duties.

MEMBERS OF THE POLICE DEPARTMENT
OF MILFORD, MASS.

Report of Sealer of Weights and Measures.

Milford, January 1, 1922.

TO THE HONORABLE BOARD OF SELECTMEN:—

GENTLEMEN: —I hereby submit my report as sealer of weights and measures for the year ending Dec. 31, 1921. All places of business in the town of Milford were visited by me after notifying by public notice as the law requires, that all scales, measures, etc., would be sealed without fee if brought to my office.

SCALES, MEASURES, ETC., SEALED.

	Adjusted.	Sealed.	Condemned.
Platform scales, over 5000 pounds .	3	8	1
Platform scales, under 5000 pounds	51	91	5
Computing scales . . .	36	67	1
Counter scales . . .	4	57	
Spring scales . . .	19	104	8
Slot personal weighing scales .		9	2
Beam scales . . .	1	11	
Weights . . .	10	706	46
Prescription scales . . .	1	8	1
Wet measures . . .		218	38
Automatic pumps . . .		13	2
Yard sticks . . .		70	2
Office calls for sealing . .	198		
Outside calls for sealing . .	253		
Sealing fees . . .			\$115 27
Paid for cards, stamps, etc. .			\$2 70
Paid to Town Treasurer John E. Swift .			\$107 60
Not paid to the sealer . . .			\$4 97

Thanking the Honorable Board of Selectmen, and the public for the assistance given me during my term as sealer of weights and measures, I am

Respectfully,

DANIEL M. O'BRIEN,
Sealer of Weights and Measures.

REPORT OF THE TOWN SOLICITOR.

Milford, Mass., January 24, 1922.

TO THE HONORABLE BOARD OF SELECTMEN:—

The Law Department of the town has been kept continually busy during the past year in connection with numerous cases and legal matters concerning the carrying on of the town business and its various officers and boards.

There are now pending against the town in various courts of the Commonwealth the following cases, to wit:

Suit brought by the Town of Framingham, Mass., to recover \$645.02 for aid given to one Jennie Bevilacqua, contending that her settlement was in Milford and the obligation belongs to Milford. This case will probably be settled very soon.

Suit brought by John Gubana for injury received in March, 1920, on Carroll street, claiming a defective sidewalk. Liability of the town very doubtful.

Anthony Parente has brought a claim for injury caused by a town truck. This is protected by insurance and will be handled and paid by insurance company should there be a judgment against the town.

Home National Bank has filed a complaint claiming it has been aggrieved by assessment made by assessors and requests that there be an abatement. Matter will probably be tried very soon.

The committee that your board appointed to assist me in preparing a set of proposed building and fire limit by-laws have met with me and will be ready to submit to the voters at the next town meeting this much and long needed by law amendment.

I strongly urge that within the coming year the law de-

partment be instructed to examine all previous town by-laws, recodify the same and bring before the town meeting of November, 1922, for action, a concise and complete set of by-laws governing all town officers, departments and the general public.

I earnestly thank all town boards and town officers, especially your Honorable Board and our able Chief of Police, for the aid given and the courtesy extended me during my first trying year as Town Solicitor.

Respectfully submitted,

ALFRED B. CENEDELLA,
Town Solicitor.

Report of the Inspector of Wires.

TO THE HONORABLE BOARD OF SELECTMEN:—

In presenting the report of the department for the year, I am under the disadvantage of having actual charge of the work for only one half of the period.

I wish, in this connection, to present a tribute of appreciation of the work of Mr. John B. Warner, who did all the organization work of the department and faithfully carried on the work for over six years.

In taking over the work of the department, I have tried to make the inside wiring inspections more searching and have in many cases made from two to four inspections, to cover all parts of the work.

Three hundred and four first inspections, and 112 subsequent inspections have been made during the year, besides many consultations of an advisory nature.

The increase in electric lighting and power is shown by the following report of the Milford Electric Light and Power Company.

	1920	1921
Customers	1,648	1,978
Horse power in motors	1,863	2,427
Ft. of wire in public streets	793,653	1,452,343

The most striking feature of the year was a sleet storm on November 27, 28 and 29th; which crippled all wire service in nearly all eastern Massachusetts, as no storm in history had done.

The Electric Light Company lost all of its six commercial circuits and five street light circuits, about 100 poles went down, and about one ton of wire has been scrapped.

In addition, both main power lines from Uxbridge were

lost and the town was without commercial power for nearly a day.

By most strenuous efforts on the part of the officials and men of the Electric Light Company they were able to restore one main line on the night of the 29th, and Milford was one of the most fortunate towns in the region.

The local power circuits were first restored to get the factories in operation, then the Main Street circuits, then the residential section and the street lights.

The New England Telephone & Telegraph Company suffered fully as badly. Out of 911 circuits and 2208 telephones, 725 circuits and 1600 telephones went out of service, and all toll lines out of town went down; except those to Framingham and Boston, which were in cable.

All the local force of the Company from Manager and Wire Chief down, worked hard to keep the most important lines in service during the storm. About 305 poles will be replaced and about 70 men have been employed in the vicinity, on the repairs.

The Milford & Uxbridge Street Railway Company had its share of trouble.

For one day, November 29th, its steam plant furnished power, the first time in three and one half years, the only electric power in town.

Cars were operated between Milford and Hopedale nearly all the time, but for nearly three days no power could be put on any other line, a condition that has not occurred in the history of the road.

The fire alarm circuits suffered much the same as other wires, but owing to energetic work and fortunate absence of fires, no serious results occurred.

Milford has much for which to be thankful and should give much credit to the men who restored our wire service much earlier than in many towns and cities.

Considering the conditions, the absence of serious acci-

dents was remarkable, and the different companies were very prompt to attend to dangerous conditions when reported.

Months will be required to fully restore all wires and poles, but when the work is completed several improvements will be evident.

Respectfully submitted,

FRED M. DANIELS,

Inspector of Wires.

AUDITOR'S REPORT.

TO THE VOTERS OF THE TOWN OF MILFORD, MASS :—

I have examined the accounts as shown by the treasurer's books and verified the accounts as presented in the reports of the various town officers and find them correct.

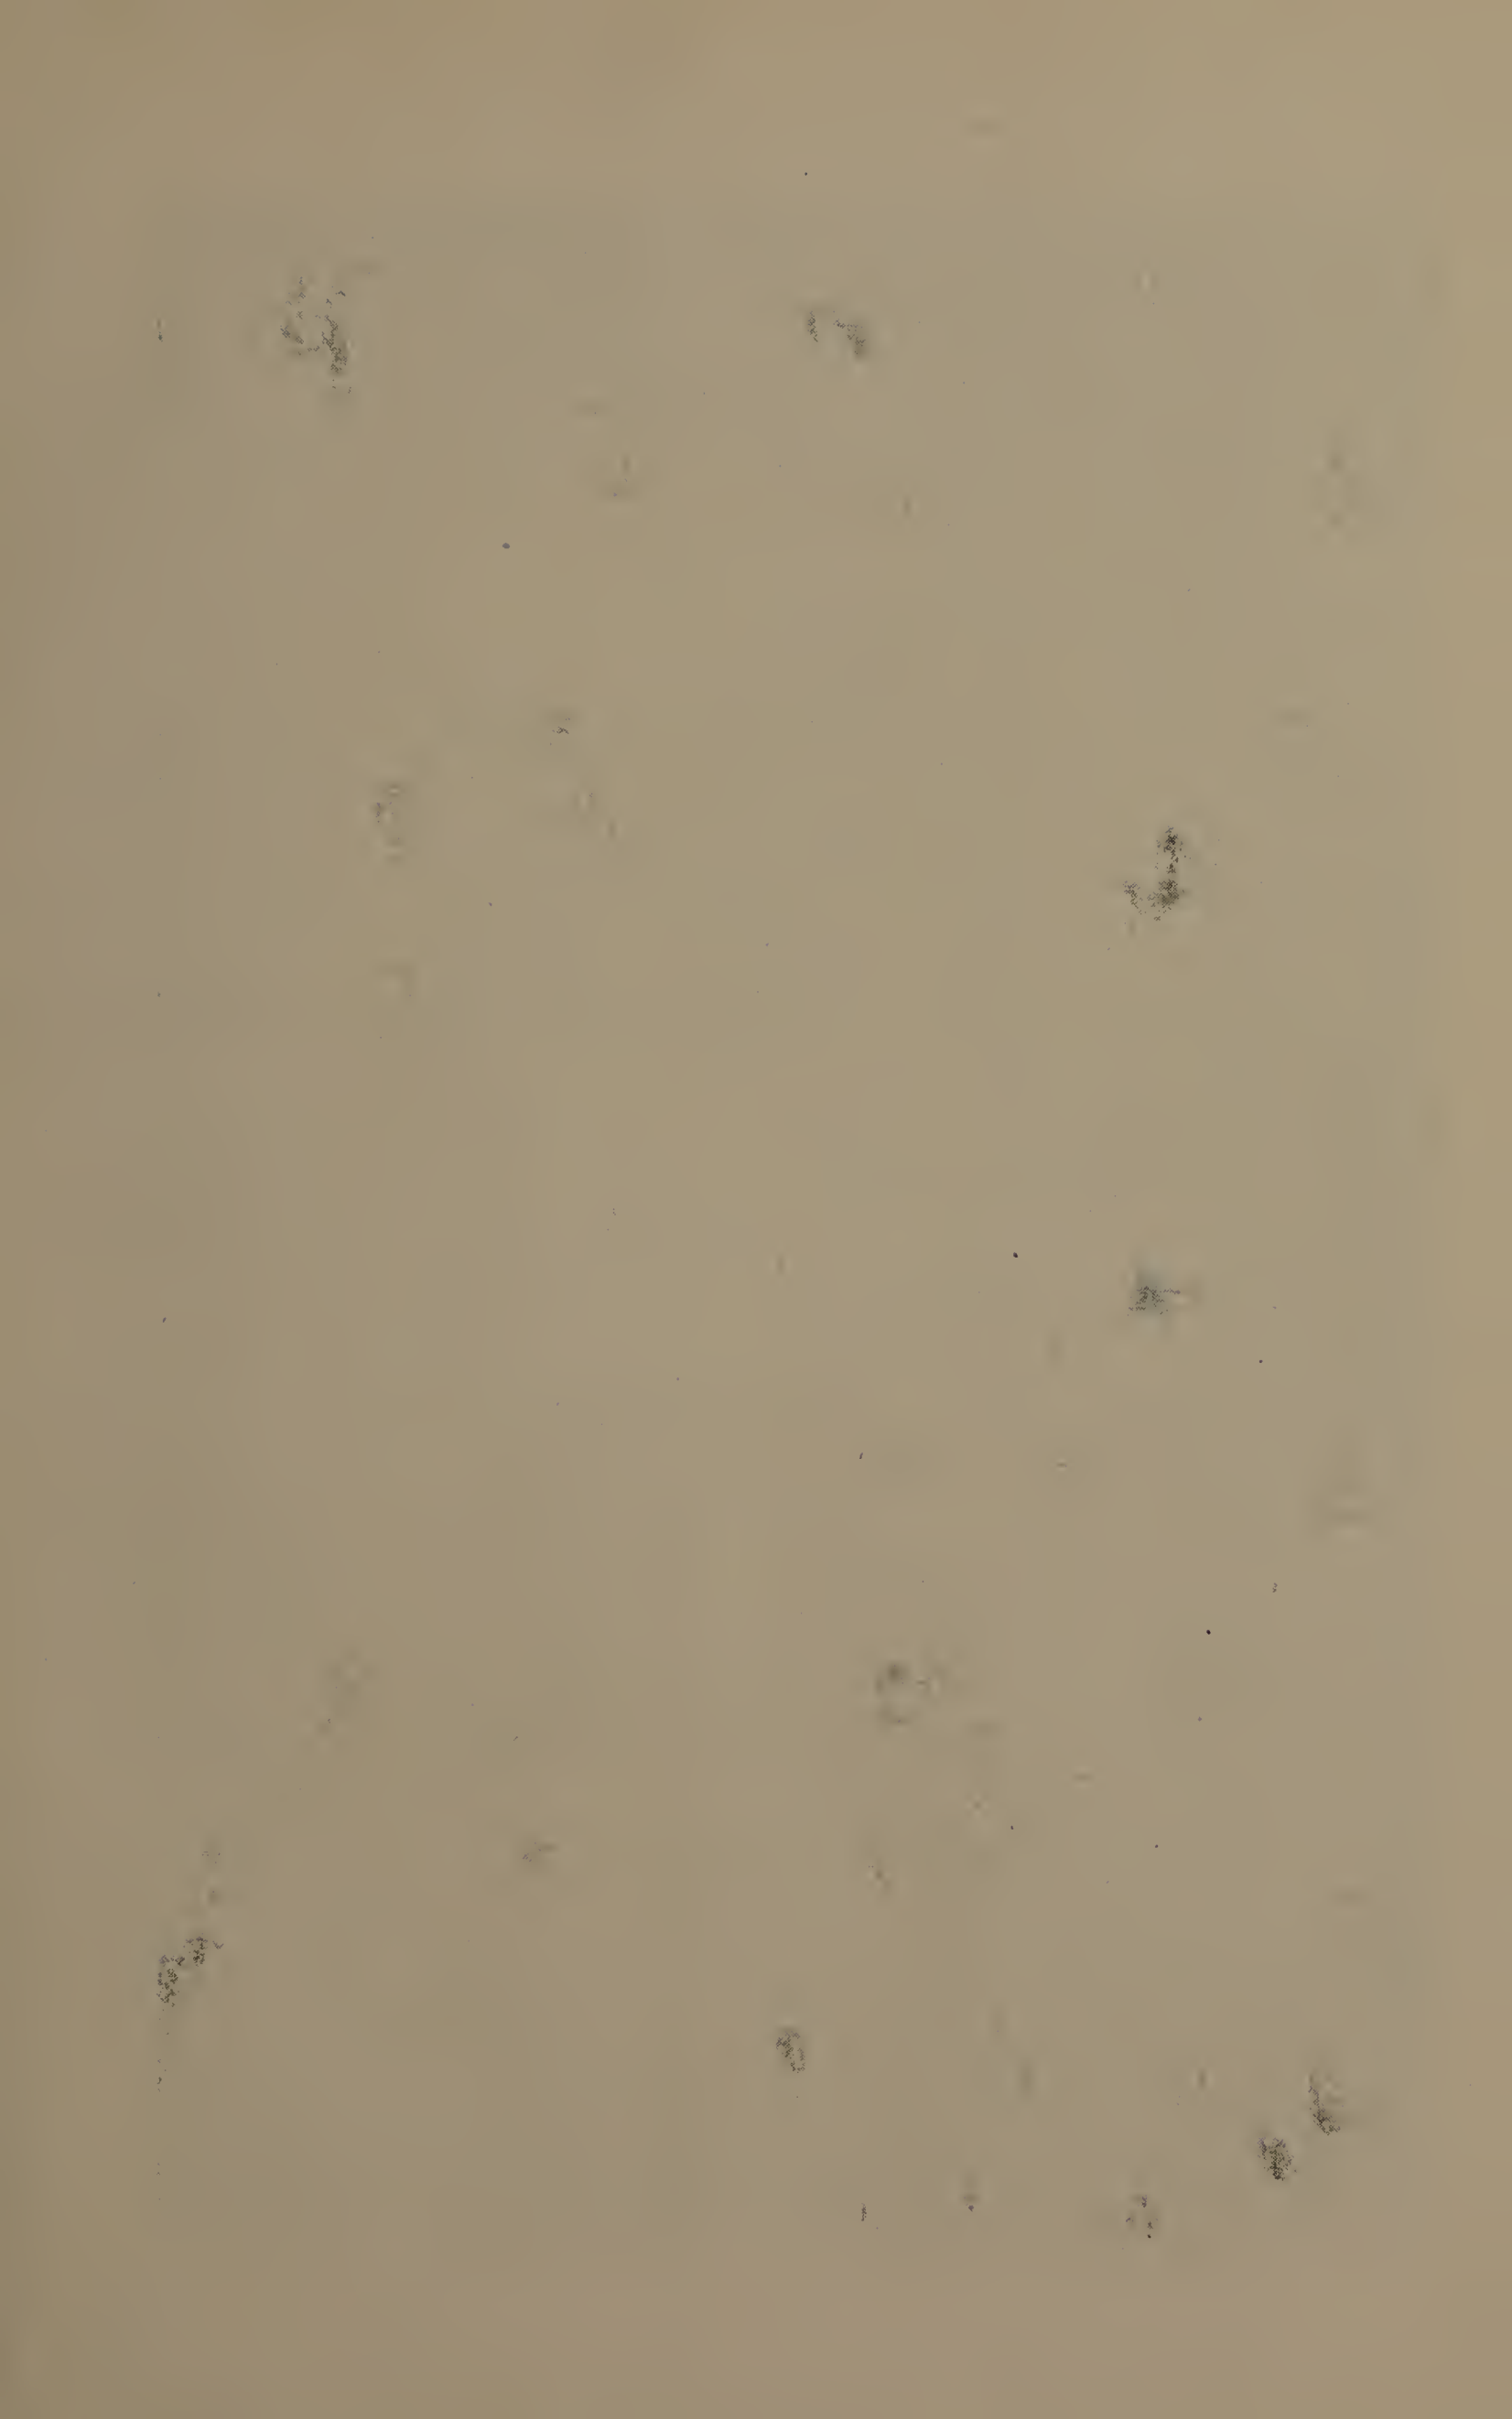

I find there exists a grave necessity of having town officials, over whom there is no supervising board or committee, make periodic reports of work done and any other details connected with their work essential for a full knowledge and understanding of what each department has accomplished.

I also suggest that each department of the town government be compelled to have its report in the hands of the proper official not later than January 15 of each year, so that the printer may have sufficient time and be able to deliver Town Reports on or about February 20, thus giving the citizens plenty of time to look over same previous to annual town meeting.

Respectfully submitted,

WILLIAM P. CLARKE,

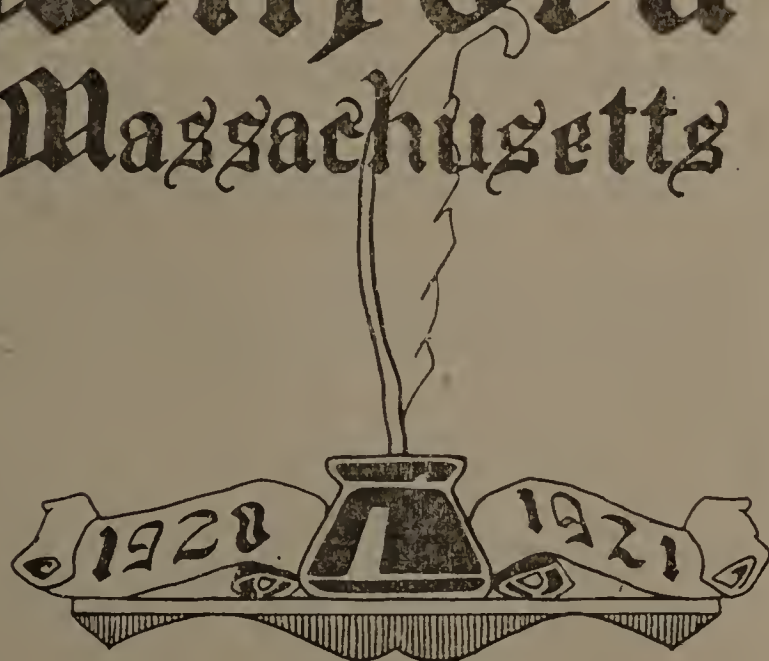

Auditor.

NO-SCHOOL SIGNAL.

3 repeated four times on the fire alarm.

At 7.30 A. M.—No morning session for all schools, including the High School.

At 8.00 A. M.—No morning session below the High School.

At 8.30 A. M.—No morning session for grades below the fifth.

At 12.30 P. M.—No afternoon session for all grades.

Between 12.45 and 1.00 P. M.—No session for grades below the fifth.

At 6.30 P. M.—No session of the evening school.

When the no-school signal is sounded in the morning and not repeated in the afternoon, there will be an afternoon session.

Report of the Committee.

Again it becomes necessary to make report to the town of the condition and needs of the school department. The following report of the Superintendent of Schools, which has been adopted by the School Committee, gives quite a detailed account of requirements and needs for the ensuing year. The laws quite recently passed by the Legislature necessitate an increased expense. The increase in the number of children that must be provided for requires more rooms and more teachers. Of course education is costly, but education gives life its value. Who will demur? "A word to the wise is sufficient."

After a careful and extended consideration by the School Committee, the following appropriations are considered *imperatively* necessary :—

Salaries	\$99,776 00
Fuel	8,500 00
Supplies	7,000 00
Care (janitors' wages)	7,800 00
Incidentals	2,500 00
Supervision :—	
Superintendent	\$3,000 00
Attendance officer	600 00
Clerk	624 00
	4,224 00
Health :—	
Medical inspection	\$1,000 00
Nurse	1,200 00
Supplies	50 00
	2,250 00
Repairs	4,500 00
Transportation	3,500 00

Carriage hire	.	.	.	\$650 00	
Night school	.	.	.	800 00	
				<hr/>	\$141,500 00
Continuation school	3,000 00
Back bills	189 26
					<hr/>
					\$144,689 26

Report of the Superintendent of Schools

To the Honorable School Committee of the Town of
Milford.

Gentlemen:—

I have the honor to present my eleventh report as
superintendent of your schools, the forty-fourth of such
reports in Milford.

STATISTICS

The following statistics indicate certain robust and un-
usual conditions in our school system, and are worthy of
close examinations:—

Pupils enrolled September, 1920	2,455	
Pupils enrolled September, 1921	2,684	
Gain		229
Total enrollment, 1919-1920	2,472	
Total enrollment, 1920-1921	2,544	
Gain		72
Grammar Graduates, June 1920	141	
Entered High School (of the above)	139	
Survial		98.6%
Compared with the records of previous years:—		
1 yr. ago	85.5%	
2 yrs. ago	90%	
3 yrs. ago	94.8%	
4 yrs. ago	100%	
5 yrs. ago	90%	
6 yrs. ago	80%	
7 yrs. ago	94%	
Present enrollment of Freshman class not counting out of town pupils		
	135	
Persistence		97.1%

Compared with records of previous years:—

1 yr. ago	97%
2 yrs. ago	94%
3 yrs. ago	96.6%
4 yrs. ago	84.6%
5 yrs. ago	90%
6 yrs. ago	80%
7 yrs. ago	90%

Entire Freshman class entering High School in September	149
Still in High School	143
Persistence	96%

Compared with the records of previous years:—

1 yr. ago	97%
2 yrs. ago	94%
3 yrs. ago	96%
4 yrs. ago	85.4%
5 yrs. ago	95%
6 yrs. ago	96%

Sept. 1921 Jan. 1922

Enrollment of entire High School.

Postgraduates		3

Juniors	67	64
Sophomores	98	98
Freshmen	149	144
	<hr/>	<hr/>
	359	353
Persistence		98%

An inquiry into the relative persistence of boys and girls through the four years High school course indicates a somewhat greater survival among girls than among boys, as might have been expected.

The percentage of boys in the High school, for many years noteworthy, is now 50%, the highest since these records were kept.

Previous years:—

1913-1914	43%
1914-1915	45%
1915-1916	41%
1916-1917	40%
1917-1918	43.5%
1918-1919	49%
1919-1920	45%

OUTSTANDING FEATURES

Two outstanding features of the period covered by the present report are: (1) The increase in enrollment, referred to farther on, and (2) the establishment of the continuation school in Milford, including, since January 1, 1922, a practical arts shop for boys. A resume of the reports of Mr. Chilson and Mrs. McIntyre will be found in subsequent pages of this report and merit the careful consideration of all interested in the public schools. The realization of manual training for even a small group of boys is the culmination of an ideal long cherished by the writer and it is hoped

that this work may at an early date be extended so as to include all boys in the Stacy school.

FINANCIAL

Although we began the fiscal year 1921 with the largest school appropriation in the history of the town and although we came through with small balances in the special appropriations and practically came through in our general appropriation (there was a deficit of about one-tenth of one per cent.) the facts, (1) that prices for school supplies receded very little during the year (hardly at all except the prices of school papers), (2) the prices of school books remained throughout the year at the new high prices established about a year ago, and (3) the further fact that we had 229 pupils more to educate during the second half of the year 1921 than during the previous year necessitated self-denial and the practice of the most rigid economy during the year. As pointed out elsewhere, the extra enrollment of more than 200 pupils referred to has meant real congestion during the second half of 1921 and, on any decent basis of housing, and with any sort of regard for a proper teacher-load, calls for six or seven more school rooms. This, of course, suggests six or seven more teachers. A large proportion of this increase in enrollment is in the High and Stacy schools.

A LARGER BUDGET FOR 1922

Everything points to a still further increment in school population for the school year 1922-1923 (see forecast for September above). On a very conservative estimate we shall next September have a further increase of 100 over the present enrollment; now 229 plus 100 equals 329 more than the enrollment upon which last year's budget was estimated. The cost of educating 329 pupils at \$50 per capita equals \$16,450. The committee asks for an increase of only \$6,679.15! It will be noted that Milford's per capita expenditure for education last year was only a little more than \$50. This is much less than many other towns in

Milford's class, so it will be readily seen that, while we are asking for large amounts of money, having in mind only the sum asked for, with no thought for the new scale of living and the reduced purchasing power of the dollar, it is apparent on the other hand that, having due regard to the present cost scale, we are expending essentially less per capita than we were doing ten years ago, and have fallen considerably behind other towns of the same rank as Milford.

A "FIFTY CENT DOLLAR"

What a Dollar Would Buy in 1910 and 1921

	1910	1921	Ratio
Teachers' Time	2.1 hours	.87 hours	41.43%
Supt.'s Time	1.59 hours	.93 hours	58.4%
St. Ry. Tickets	40 rides	20 rides	50%
Janitor's Time	.05 of a week	.031 of a week	62½%
Fuel	275 lbs. hard coal	143 lbs. hard coal	52%
Repairs			
Carpenter's Time	2.12 hours	.9 hours	42%
Materials			33%
Supplies			
4 pkgs. 10 lb. Comp.		1.61 pkgs. 10 lb.	
osition Paper		Comp. Paper	40%
6 2-3 pkgs. 6 x 9		3 1-3 pkgs. 6 x 9	
Arithmetic Paper		Arithmetic Paper	50%
3.6 gross Pens		1.54 gross Pens	43%

The budget for 1922 is based on less than half the increased number of teachers that will probably be needed for September; on practically the same expenditures as last year in the items of fuel, care (janitors' wages), transportation, carriage hire, and night school. With regard to supplies:—we were only able last year to get through with the amount expended for supplies by the practice of every sort of rigid economy. We are using the same titles (and

some of the same text-books) in geography and arithmetic that we have used for the last eleven years. New titles in these subjects should be introduced and the schools fully equipped therewith. Properly to do this and otherwise equip with ordinary supplies will cost \$9000 (est.). The committee asks for \$7000, an increase of about \$1000. The committee fully believes that this entire supplies program should be carried out but, having in mind Milford's financial condition, asks for the smaller sum, which will provide for a full realization of a part of the project or the beginning of new introductions, to be completed later. In regard to repairs:—the east half of the Plains Primary school must be shingled this year. The High school roof needs considerable repairs and every wooden school in town but one needs painting. To make the ordinary emergency repairs of a school year and do a fraction of the above special repairs will require the amount asked for, \$4500. The amount asked for incidentals is less by \$1300 than one year ago because a special charge for insurance, amounting to \$900, is not necessary this year, and the item of clerk hire, formerly charged to incidentals, is now charged to supervision. The item of supervision appears about \$600 more than a year ago as a result of charging to that partial appropriation a salary item that was formerly charged to incidentals. The item for health is larger than last year owing to the securing of a full time registered nurse.

A NEW SCHOOL BUILDING NEEDED

Because of the present congestion and the prospect of still greater congestion in the immediate future, the time has come when another school building must be provided in Milford, and incidentally, if one line of suggestion now being considered is followed, the reproach of the present quality of one or two schools now in use and the ancient noisome conveniences connected therewith can be removed. The suggestion referred to contemplates (1st step) renovating and modernizing the South school and adding another four-room unit; (2d step) the addition of

another six-room unit. The present enrollment of classes at the South school, the table of statistics, and the attendance forecasts for the High and Stacy schools for September indicate (1) more crowded conditions at the south end than at present; (2) a student battalion of from 150 to 200 for the High school, or Stacy and High schools "with no place to go" at the beginning of school next September. Here then is a twofold problem; twofold as it affects two distinct localities and twofold in the impelling reasons for a new building. More room must be provided in the central part of the town, and make what haste we may, we shall hardly escape a transition period of temporary quarters and arrangements, most difficult and unsatisfactory always. At the south end of the town more room is needed quantitatively, and better room is woefully needed. The time has come when the town of Milford ought in decency to provide altogether better quarters for its school children than the Chapin Street and "Brick" schools. With the adoption of the suggestion referred to, the solution of this two-fold problem becomes comparatively easy, orderly, and logical. The remodeled "Brick" school, with eight rooms, will take care of four or five grades expected to be there next September, and three of four seventh grades that could be held back from the Stacy school in next September's adjustment, thus making room for the contemplated overflow in the High and Stacy schools at the opening of the next school year. For September 1923, the same arrangements could be made and possibly the first three grades expected at the Chapin Street school could be housed in the still further enlarged "Brick" school, with fourteen rooms. The undersigned recommends this to the School Committee and citizens as, up to the present moment, altogether the best suggestion that he knows of.

I recommend more and better school rooms, and I particularly recommend the above plan.

RELOCATION OF THE COOKING SCHOOL

At the beginning of the fall term, the classes in cooking began their work in the new cooking room in the basement of the George E. Stacy school. The change from the physical laboratory at the High school has long been desirable, and owing to the present crowded conditions of the High school, became absolutely necessary, on account of the number of Physics classes, as well as the necessity of using the physical laboratory in the afternoon to prepare work and experiments for the next forenoon. The new room has been fitted out with a soapstone sink, gas range, hot water heater, nine tables with individual cookers, supply room with shelves, and such other new equipment as was absolutely necessary. By a careful interlocking of programs both the regular day classes in cooking and the Continuation school classes in cooking have been able thus far to use these quarters. The room is attractive, sunny, and altogether an improvement over the old quarters.

CONTINUATION SCHOOL

When it was found at the close of 1920 that Milford had had more than 200 minors 14 to 16 years of age working under employment certificates or home permits, it was seen that Milford, for the year 1921, would automatically come under the provisions of the law authorizing the establishment of Continuation schools. There was a consultation with the state authorities and the sum of \$2400 was asked for and secured at the March town meeting. The Town of Milford will be reimbursed in a portion of this sum. The school was opened October 3, 1921 and has continued to date. Its pupils include all holders of employment certificates or home permits employed in Milford, including four from out of town. Under the statute all the minors enumerated above must attend school four hours per week while employed, and twenty hours per week when not employed. By the further provision of the statute these minors when not employed may be placed in regular day

school in cities and towns not maintaining twenty-hour classes. As in regular day school, we were able, in case of the girls, fully to comply with the law and offer both general improvement courses (English, History, Arithmetic, Geography, etc.) and Household Arts and Home Economics. In case of the boys we were obliged to defer the manual half of the work until later. Owing to certain economies that we were able to effect such as (1) having the Superintendent act as Director); (2) securing teachers who were able to take all the work in the classes and whom we could secure for part time, thus avoiding extending our classes unduly to keep teachers employed; (3) deferring the manual work until later as already suggested; and (4) the fact that our term began somewhat later than that of the regular day schools we were able to operate these two schools, and with the saving thus effected make a start towards a boys' practical arts shop. A universal sawing machine, band saw, joiner and grinder—all motor driven—and vises and tools and a certain amount of stock for fifteen boys, was secured. Under Mr. Chilson's direction a partition has been built across the boys' play room, continuous benches are to be built around the walls, and the boys are to work out and develop their own courses in practical arts and jobbing under Mr. Chilson's direction.

Naturally, there has been a considerable amount of extra work for the attendance officer in connection with attendance at the Continuation schools. For the greater part of the fall term, however, interest was keen and the attendance phenomenal (especially at the girls' school). The writer takes this opportunity to thank the various employers of labor in Milford for their cooperation in securing attendance at the Continuation schools, and, more especially, for the polite and generous way in which they have, on the whole, met the most delicate part of the whole problem—the Continuation school teachers' visits at the factories for the follow-up work.

For the boys' school we were fortunate in securing the

services for two and one-half days a week of Mr. Albert W. Chilson of Milford, who has charge of the Manual Training and Mechanical Drawing in the Hopedale schools. The girls' school is in charge of Mrs. John L. McIntyre, a graduate of Bridgewater Normal School, and a teacher of several years of practical experience.

A resume of Mr. Chilson's account of his work follows:

"The Milford Continuation school, boys' department, was started on Thursday, October 6, 1921 with a total of 52 pupils, with sessions on Thursdays and Fridays of each week, at first, and Wednesdays, Thursdays and Fridays of each week later.

"The work is divided into follow-up work and teaching. The first four hours of Thursday and Friday are given to follow-up work and the last four hours of Wednesday, Thursday and Friday to teaching. The follow-up work is conducted as follows:—the teacher is required to keep the data on each of the pupils and to get this data it is necessary to visit the boy at his place of employment and see him at his work. During this visit the teacher talks with the boy and also with his employer. He finds out all he can about the boy, his habits, his ambitions, his work, his home conditions (if he has a home permit) and other things of vital interest to the boy and teacher. Upon this follow-up work he bases the work for the boy.

"The boy comes to school for four hours during the teaching period. His hours of study are divided into English, Civics, Mathematics, Hygiene, Mechanical Drawing, and the theory of vocation which he chooses. As to the chosen vocation I will say that the vocations under instruction are Carpentry, Plumbing, Weaving, Electricity, Commercial Arithmetic, Merchandizing, Auto-Mechanics, Art-work or Cartooning, and Farming. At present the vocation study work is from theory, but as soon as the manual room is fitted up the boys will be given (as required by state law) two hours of practical training. This training will apply as nearly to the boy's chosen vocation

as our facilities will permit. If we can not furnish work perfectly adapted to his chosen vocation he will be given a line of work that will be valuable to him at his home or for a future time. The aim of the instruction in this school is to benefit both the boy and his employer. The follow-up visits are to determine what lines of work are best adapted to accomplish that end."

A synopsis of Mrs. McIntyre's account of her work during the fall:

"The girls' classes opened October 3, 1921 with an enrollment of 46 girls, in three classes. Each group has had two hours of related academic work, and two hours of practical sewing or cooking. The girls were given their choice of subjects in the practical arts groups. Monday classes meet for sewing; Tuesday and Wednesday, for cooking. In December an increased enrollment made necessary the forming of another division, which came on Friday. As far as possible, divisions were made so that girls who had completed certain grades in the day schools were grouped together. One class was so arranged that those who did not come under any of the divisions of the other three classes might have special work. Most of the girls have completed the sixth grade. Several pupils left school after entering High school. Special work in English and advanced Arithmetic is given to them.

"The sewing class has accomplished a considerable amount of work. The first project was the making of 20 aprons for the cooking school. This gave the girls an opportunity to show their familiarity with the use of the machines. The girls have also completed the following projects:

1. Plain undergarments.
2. Cotton dresses.
3. Plain hemming of dish towels for the grade school cooking class and for the Continuation school.
4. French hemming of napkins for the cooking schools.

"These girls have also been given brief lessons in textiles, and it is hoped that at the end of the school year they can go into any department store and choose the right materials for certain garments. Care has been taken to impress upon the girls the economy in buying a guaranteed material even at a considerable greater cost rather than to pay less for inferior material. During the remainder of the school year the girls will continue with simple projects, further study of textiles, and costs of materials for these projects.

"The cooking school has tried to meet the needs of the girls. All lessons are planned on the meal basis. Each lesson consists in the cooking of an entire meal. These meals have been planned with careful thought as to cost, food values, and the needs of our girls. The menus for each day are mimeographed and each girl is allowed to take her copy home at the close of the lesson. Each meal is simple in its contents, easy in its preparation, and economical in its cost.

"An interesting lesson was given in the fall. The teacher, during her follow-up work, went to an Italian home one morning, and learned to cook macaroni in one Italian style. The lesson was then given during a cooking period and the girls relished this little deviation from the common routine. At Christmas time the girls had an opportunity to try their skill at candy making for the holidays.

"A few plans for meals are listed:

Breakfasts

1. Rolled Oats with milk
Stewed Prunes
Muffins
2. Sliced Oranges with
Lemon Juice
Scrambled Eggs
Griddle Cakes

Dinners

1. Boiled Cod with Egg
Sauce
Mashed Potatoes
Baked Custard
2. Swiss Steak
Creamed Carrots
Apple Dumplings

Suppers

1. Escalloped Potatoes and
Cheese
Cranberry Sauce
Gingerbread
2. Tomato Bisque
Nut and Raisin Bread
Molasses Cookies

"The girls have in their academic work taken some time for the study of materials used in the cooking classes, and for other things relative to cooking, such as care of the supply closet, the dishes, and aprons. As soon as the necessary equipment is added the girls will receive lessons in table setting and care of the table linen. It is hoped that with the beginning of a new school year those girls who have been with us this year may have a chance to learn a little of house management and of home decoration.

"The follow-up work has been interesting as well as helpful. If more teachers could see their pupils in their home surroundings a better working knowledge of how best to help these children might be obtained. On the whole, both shops and homes have accepted this "working together" idea and are cooperating with the school."

HIGH SCHOOL

In his second annual report Prin. Thomas J. Quirk of the High School discusses a number of topics and makes certain recommendations.

Enrollment

The High School has at date some 350 pupils, about 70 more than at the close of school last June. Unlike the experience of previous years the student body seems to be increasing rather than decreasing from day to day, while there has been no increase in the High School faculty for some time. As a result of this, Mr. Quirk points out the fact that there are 26 classes with over 30 pupils in each

class. Such a teacher-load neither meets the state requirements nor gives the pupils a square deal.

Entertainments

The Class of 1921 staged a most successful play entitled, "A Couple of Million," in the Milford Opera House on April 7th. The performance was a success in every way, and added \$250 to the Senior treasury. The play was coached by Miss Ruby F. Sutherland, who carefully drilled the various characters for over eight weeks. To her the school is greatly indebted for the success of this performance. The cast of characters was made up of the following members of the Class of 1921, and each showed natural ability along theatrical lines: Madeline Burke, Marion Greeley, Rita Daigle, Lillian Ranahan, Isabel McGrath, Davis Carroll, Francis Hannigan, Leo Dickson, James Steeves, George Brown, and Paul SanClemente.

The annual May Dance was held in the Milford Town Hall and furnished a very pleasant evening's entertainment for all who attended.

Graduation

Commenting upon the graduation of the Class of 1921, program and details of which are given farther on in this report, the principal justly commends the high quality of the program itself, and extends his thanks to Misses Toohey and Birmingham, who had charge of the decorations, and to Misses Sutherland and Ryan for assistance with the program. The following special prizes were given at graduation: the prizes from Delano Patrick fund for "The Best Union of Nations to Bring About Peace," \$20, \$15, and \$10, went respectively to Leslie Calkin, 1922; Elizabeth Erickson, 1922; and Rita Daigle, 1921. The gold medal offered by Dr. John V. Gallagher to the boy annually making his "M" in athletics three times, obtaining also the highest scholastic standing, was given to Paul F. SanClemente. The special book prize from the Class of 1917 fund—interest from Liberty bonds—for the best average in English, History, and Latin, was given to Miss Marion Greeley. Three

diplomas for excellence in typewriting were given to Francis Hannigan, Florence Tellier, and Paul SanClemente, all members of the Class of 1921. The program of the graduation exercises and the list of graduates will be found elsewhere in this report.

Alumni Achievements

Miss Madeline H. Burke, Secretary of the Class of 1921, has sent Mr. Quirk the following information regarding the members of her class, five are now in college, seven in commercial schools, three are in normal schools, and the remainder have entered the business world or are employed at home. Investigation shows that our High School sends proportionally as many students to higher seats of learning as any High School in this vicinity. The fact that fifteen students of last year's class of thirty-nine pursue courses in higher institutions of learning clearly shows that our High School pupils want the best education that can be procured, and are fully equipped, when they leave, to gain admission to higher institutions.

Athletics

Commenting on the athletic situation Mr. Quirk says:

"The 1921 baseball team of the High School, under the guidance of Coach Frank C. Berry, and Captain Richard C. Mackay, was not up to the usual standard of our teams. The absence of veterans and the shortage of pitching material were the chief reasons for not having the usual representative team. It is a pleasure, however, to report that our 1921 football team made a better record than any other team during the previous three or four years. Six games of the nine played were victories, and in many instances victories were scored over opponents of much heavier weight. The success of the team during the football season has been due to the excellent coaching given by Sub-master Berry, who worked hard for the success of the squad, and gave us a representative team. With the graduation of Captain Grayson, of the football team, the school will lose one who was thoroughly interested in the progress

"A COUPLE OF MILLION," M. H. S. SENIOR DRAMATICS, 1921

of athletics, and gave his best efforts to make our teams successful. The Midland League, established some few months ago, has been a valuable asset in stimulating interest in sports, and it is our earnest hope that, for the promotion of athletics, this league will be made a permanent institution."

Orchestra

The school orchestra is composed of eleven musicians and, under the leadership of Bennie Lancisi, has furnished music for all social functions, and is maintaining the high reputation attained by their immediate predecessors.

Class Standings

Since the beginning of the school year 1921-1922, there has been a marked advancement in the scholastic standing of many of the pupils. When the reports were issued in November, 43 students were on the honor roll. In January of this year 64 pupils had an average of 85% or better. This fact indicates a decided improvement along scholastic lines.

Music and Drawing

Commenting on these subjects Mr. Quirk observed:

"The Music class now numbers over 200 pupils, and while the class is very large, excellent work has been accomplished, due to the untiring efforts and capable instruction of our Music Supervisor, Miss Helena F. Swift.

"The work in the Drawing Department, under the supervision of Miss Genevieve M. Toohey, is exceptional, and rivals the work done in any other High School."

Gifts During the Year

The sum of \$150, gift of the Class of 1921, to be used to add another portion to the main plate of the beautiful bronze honor roll which was given to the High School by the Class of 1920; and some minerals, donated to the library by Ruth Cheney, 1923.

Recommendations

In the course of his report Mr. Quirk makes the following recommendations:

(1) That three years of typewriting and three years of stenography be made a part of the commercial course.

(2) That the ventilating system in the High School be inspected.

(3) That more teachers be added to the High School faculty.

In closing his report Mr. Quirk extends to the teachers his deepest sense of appreciation of their spirit of cooperation, and to the Committee and the student body his sincere thanks for their cooperation and their willing assistance. Mr. Quirk's report indicates constant, intelligent, and devoted service on his part, and untiring energy on the part of his assistants during the year covered by his report, leading to the inevitable result of a most successful year's High School work.

GEORGE E. STACY SCHOOL

Mr. Wilfred A. Beaudry, Principal of the George E. Stacy and Spruce Street schools, presents a thoughtful and interesting report on the year's work in his schools. Changing of the High school class rooms from the upper floor to the lower floor has been successful, in Principal Beaudry's view. The spirit and dominating ideals of the school—ideals of kindness, helpfulness, buoyancy, and hopefulness—have appeared in the largest donation towards the Foch Fund, \$23; the largest school contribution towards the sale of Christmas seals, \$50; 22 Christmas baskets—hearty meals for 100 people—given by the pupils on their own initiative; the establishment of a first-aid department, costing \$20 and expenditures of \$255 for the furnishing of the teachers' rest room (referred to in Superintendent's report of one year ago). Cooperative government—school city—has been started and promises excellent training in citizenship. This has wisely been employed in hall and basement and has

not been allowed to conflict with or displace the authority of the teacher in the schoolroom.

Commenting on Stacy school athletics Principal Beaudry says:—"Our baseball team won praise, loyal support, a silver cup and all but one of the twenty games played with grammar school teams from the adjacent communities." Your Superintendent is glad to add his special word of appreciation and praise of the work of the Stacy school ball team of 1921. The last Hopedale game was one of the best ever seen on our Town Park.

Methods and Processes in Class Room

In this connection Mr. Beaudry says:—

"Even though the rooms are crowded, effective work is being done in the academic subjects by the pupils under the guardianship of a capable, conscientious corps of teachers.

"At opportune intervals, to the teachers are sent professional papers dealing with old, tested, renewed or new methods of procedure in teaching, and where circumstances permit these methods are being applied.

"Standardized tests in the four fundamentals are administered by the principal near the close of each semester and it is gratifying to state that our children compare most favorably, in a knowledge of the fundamentals, with pupils of other communities throughout the country.

"Due to the fact that the writer spends the greater portion of the morning session with his High school classes, the supervision in the Stacy school comes mostly during the afternoon. Thus far this year, one whole day, outside of High school class periods, has been utilized in supervising each class. A written report of observations, impressions and suggestions bearing on such visits was submitted to each of the teachers. It is hoped that at least one other such visit and report may be made this year.

Mothercraft

Mothercraft, introduced and standardized in Massachusetts, has been taken after regular school hours by the

girls. This subject is capably prepared and thoroughly taught by Mrs. Mary Sherborne, G. N., assisted by Mrs. Edna Damon, G. N. The girls are grateful to these ladies for this course in Mothercraft, presented gratis, and are keenly interested.

Recommendations

Principal Beaudry makes a number of recommendations.

(1) That the pupils of the George E. Stacy school be permitted to prepare and to present to the public one dramatic or musical project each year, in order to procure funds to finance school social contacts, such as athletics, orchestra, debating clubs, etc.

(2) That physical exercise or simple calisthenics be introduced as a daily practice in the school, and executed under the direction of the teachers.

(3) That "Current Events" may soon be introduced in the seventh grades.

(4) That material for intelligence tests be secured and used in the Stacy school.

(5) That since a manual training department has been installed in connection with the Boys' Continuation School, a course in manual training be given to the boys of the eighth grade.

(6) The introduction of the Junior High School.

Worthy of note and special commendation is the most unusual manner in which the students of the Stacy school care for their desks, and consequently the "brand-new" appearance of the school furniture after five years' use. This matter attracted the notice and called forth the favorable comment of a member of the State Department of Education on a recent visit to Milford.

EVENING SCHOOL

William J. Moore, Esq., Principal of the evening school, notes in his report on evening school activities that courses were the same as in previous years. It appears that the total enrollment and the average attendance, particu-

larly of compulsory students, was the highest in years. Mr. Moore credits this increase in attendance largely to the continued cooperation of Milford employers. An interesting feature of the work is the fact that three of our evening school pupils, illiterate two years ago, have entered the High school and eighth grade and are successfully passing in the work. It is to be regretted that every illiterate in Milford does not take advantage of the evening school courses.

STATISTICS OF THE EVENING SCHOOL

School opened October 3, 1921—Closed December 21, 1921

Term 12 Weeks

MUSIC

During the past year the work in Music has followed the same general lines as heretofore. Over 200 High school pupils have elected music as one of their studies, the largest number in the history of the school, and splendid results have been attained by the large chorus, often accompanied by the High school orchestra.

Special attention is being paid to sight singing in the grammar and primary grades together with the study of breathing, tone production, and expression. At the end of each term a program of songs and exercises is given to encourage each child to be less fearful of his own voice, and the results are very pleasing.

Miss Swift recommends that more time be allotted to Music course in all the schools; that at least twenty minutes daily be devoted to Music in the High school, this daily practice work to be under the guidance of a member of the High school faculty.

DRAWING

Drawing is taught in Milford from the generally prevalent view-point of its practical relationship to everyday life. Whereas formerly, object drawing, pose drawing, and other subjects were studied for the development of keen observation and manual skill, those drawings are now used in the planning of advertisements, which appeal to pupils as being of real assistance in the business world.

Owing to the large number of pupils electing the subject at the High school it has been found necessary to devote to these students part time on two additional days, with the result that visits to the lower grades can be made less

frequently. However, the grade teachers are supplied with typewritten outlines, so that the work may be continued, between visits from the supervisor, by the teachers, to whose faithfulness and hearty cooperation Miss Toohey pays a sincere tribute.

The High school girls are enthusiastically taking up a new line of handwork—modeling and decorating of beads and pendants for their own use. The High school boys are taking Mechanical Drawing, as usual.

In the grammar grades many useful articles have been constructed and decorated by the pupils, and various materials such as cardboard, cloth and wood were used.

COOPERATING AGENCIES

Class in Mothercraft

The class in Mothercraft, under the auspices of Quinshipaug Woman's Club is now in its fifth year. There is to be a graduation in the near future, public notice of which will be given. It is expected that there will be about twenty-five graduates. This work has been in the immediate charge of Mrs. William F. Sherborne, chairman of the Mothercraft department, assisted by Mrs. Rodney - L. Damon. The work has been along the usual lines and a high degree of interest has been maintained. The management regrets that a number of Italian girls dropped out during the course. This is specially regrettable as this work was meeting a real need along the lines of Americanization. A strong year's work has been accomplished, however. In the writer's opinion this feature of school training is one of the strongest, most needed, and most successful of all the agencies operative in the development of our young people. It is hoped that in connection with the graduation exercises there will be a round table conference of the state leaders in Mothercraft with the local people, at which Miss May Bliss Dickinson, founder and chairman of the Mothercraft will be present. This work ought to be a part of the regular public school work as it already is in 25 cities and towns.

Playgrounds

Milford's two playgrounds were well patronized during five weeks last summer and it was felt that a longer period would have been of great advantage to many children. Only three hours, for five afternoons per week, were enjoyed in organized games, industrial work, and athletics, under competent instructors who worked incessantly to care for the crowds of children who were kept from the street.

As the money voted by the Town, \$200, was insufficient to pay necessary expenses, the playground committee thought advisable to hold a "Tag Day" which helped defray salaries and purchase needed apparatus which, it is hoped, will be in readiness for next summer term.

Mr. W. A. Beaudry, Principal of Stacy School, had charge of athletics. Misses Mildred Littlefield and Elizabeth Morrison, and Mr. Davis Carroll were at the Park, and Misses Alice Carroll and Grace Carron had charge at Plains. The attendance was larger and interest greater than ever. At the closing session a joint exhibition was given at the Park where a pageant in charge of Miss Littlefield, assisted by others, was given before a large number of friends and greatly enjoyed.

Receipts

Town of Milford	\$200.00	
Tag Day and Gifts	350.76	
Balance in Treasury	133.73	
	<hr/>	\$684.49

Expenditures

Women's Club.

GIFTS DURING THE YEAR

High School. The sum of \$150 from the Class of 1921 for the second plate of the Honor Roll; mineral collection, from Ruth Cheney, 1923.

Park School. Three boys of Miss Metrano's fifth grade, made, finished and presented to their room a very neat first-aid cabinet. A handsome marine view was presented to Mrs. McManus' sixth grade by Quinshipaug Woman's Club.

Clafin School. Four fine framed pictures presented by Quinshipaug Woman's Club.

CHANGES IN TEACHERS

Left the Service—High School

Miss Marcella M. Dignan, a most successful instructor in the High school since 1917, left the service in April, 1920 to become Mrs. Thomas J. Quirk. Miss Dignan brought to her work splendid training; and not only her work in the High school was of very high order, but she was a positive and inspiring force in the discipline and social leadership of the school.

Miss Elizabeth F. Morrison, an assistant in the High school since September, 1920, left the service at the close of the spring term, 1921, to accept a better position in the High school service in Manchester, N. H. Miss Morrison leaves with the best wishes of the committee, teachers, and students.

Entered the Service—High School

Miss Margaret C. Kellett, St. Mary's Academy, 1916, Milford High School, 1917 (post-graduate), Boston University A. B., 1921, assumed her duties as teacher of Science and Latin in the High School at the beginning of the fall term, 1921. Miss Kellett brings to her work superior training and gives promise of excellent accomplishment.

Miss Geraldine McGaughan, B. L. I., Emerson College, 1921, appointed an assistant in the High School for the current school year took up her duties in September as teacher of English, History and Latin. So far Miss McGaughan has shown initiative, poise, and promise of successful achievement.

Left the Service—Grades

Miss Helen G. Laughlin, teacher of grade three in the Plains Primary School, left the service at the end of the fall term, after being with us eight years, to accept a position in Marlboro, her home town. Coming to us directly from normal school, Miss Laughlin had, during the years, developed into one of our strongest and most efficient teachers, and leaves with our best wishes for her future success and prosperity.

Entered the Service—Grades

Miss Marie Metrano, a graduate of Bridgewater Normal School, 1920, after some months of substitute work at Park School, was elected a teacher of fifth grade at the same school, at the beginning of the fall term. A special piece of manual work by some of Miss Metrano's boys is referred to elsewhere in this report.

Miss Ellen M. O'Donoghue, Lowell Normal School, 1921, began her services as teacher of the Bear Hill School early in January of this year.

Continuation School

The appointment of Mrs. John L. McIntyre and Mr. Albert W. Chilson, in charge of the girls' and boys' classes, respectively, in the Continuation School, has already been referred to in this report.

Transfers

Miss Margaret E. Roche, grade three, Plains Primary School, succeeds Miss Laughlin at the same school.

Miss Grace M. Carron, Bear Hill School, to succeed Miss Roche, grade three, Plains Primary School.

CHANGES IN TEXT-BOOKS

"Vital English", F. M. Ambrose & Co., New York, was placed on the eligible list during the year.

The Aldine readers are being put on the basis of uniform room units of the new edition. A considerable supply of busy work, revised to suit the new editions of readers will fill a long felt want and be of great assistance to teachers of the lower grades.

SPECIAL LESSONS IN PATRIOTISM

In addition to the regular and constant work in the teaching of patriotism, on the part of the principals and teachers, two special lessons in patriotism were given during the year 1920-1921. In each case the writer was at some pains carefully to organize and present to practically all the schools in town a formal appeal and make a definite point.

The Foch Fund

The first instance was the presentation of the appeal for small contributions to the Foch fund. In this lesson the attention of the pupils was called (1) to the personal parallel i. e., Washington and Lafayette; Pershing and Foch; (2) to the national parallel, France to the rescue of America in the Revolution; America to the rescue of France in the World War; and (3) America's spirit, effort, and success in the World War. The sum of \$81.00 was contributed by the schools and forwarded to the treasurer of the fund.

The Disarmament Conference

The second instance was the inception of the Disarmament Conference. The points made in this lesson were (1) another war probably means the downfall of civiliza-

tion (with something definite about the nature of the next war—war in the air—poison gas and high explosive bombs); (2) our government's effort to induce the nations to come together and listen to reason; and (3) the far eastern question—America and Japan and the war cloud hovering over the Pacific.

Some statistics of modern naval costs were presented and some lists of examples in Arithmetic based on these costs were given to middle and upper grades. These problems were not too difficult of solution by the pupils, but the answers to them were of an astounding character quantitatively. Teachers were asked to have their pupils submit lists of constructive peace time results that could be achieved with some of the money that the World War cost, that one battleship cost, etc. In the latter connection a large number of projects were submitted, and many civic improvements were suggested. It is interesting to note that more and better school room was suggested in 70% of the papers; better roads in 70%; and gymnasiums in 78%.

MILFORD TEACHERS' ASSOCIATION

1921-1922

1921

May Reading, "Turn to the Right" by Edwin Whitney of Boston.

May Business Meeting. Election:—

President, Evelyn C. Curran.

Vice-President, Wilfred A. Beaudry.

Secretary, Catherine M. McNamara*

Treasurer, Sue E. Ranahan.

Chairman, Executive Committee, Mary T. Gilmore.

Chairman, Social Committee, Ellen M. Waters.

October Informal Reunion of Teachers and Social.

October Lecture, "School Experiences" by Mary E. McSkimmon, President of Massachusetts Federation of Teachers.

November Lecture, "Story Telling" by Mildred Forbes of Boston.

1922

January Business Meeting.

*Succeeded by Agnes R. Lynch.

SCHOOL NURSE

The arrangement existing for the past two years, whereby we enjoyed the ministrations of a school nurse furnished by the Milford-Hopedale-Mendon District Nursing Association, was terminated in the fall of 1921, after correspondence and due notice, owing to the desire of the school authorities of Milford to have the full time services of a graduate registered nurse. We were fortunate in securing the services of Mrs. Mary E. Naughton, R. N., of Bellingham, who comes to us with the best of credentials and a number of years of successful experience. Mrs. Naughton began her work December 5, 1921 and has attacked her problem with intelligence and enthusiasm. A report of Mrs. Naughton's activities follows.

"Beginning December 5 each school has been visited three times. Home visits are made after three o'clock. The parents are visited in cases where some instruction is necessary or information required, and to explain the importance of correcting the physical defects found during the medical inspections..

"The following is the result of my work since my appointment:

No. examinations	4,685
No. home calls	17
No. cases impetigo	24
No. cases scarlet fever	1
No. cases chicken pox	8
No. cases mumps	3
No. exclusions	36
Operations arranged for	1
Children accompanied to oculist.	2

All schools except Bear Hill and Braggville have been visited five times.

"The Dental Clinic has made splendid progress in the upper grades. The children realize what lack of care means to the teeth and attend the Clinic promptly upon notification that their teeth are in need of attention. However, in the lower grades the desired headway has not been made. Too young themselves to realize the seriousness of neglect, the lack of cooperation on the part of the parents of some of the children has somewhat retarded the progress of the Clinic in the lower grades. Continuous urging, both on the part of the teacher and the nurse, is constantly necessary, but in spite of this there are still several cases in the primary grades where children have not yet received dental attention which they are sorely in need of. If the parents could but comprehend the economy of early prophylaxis our schools would have healthier, happier, brighter children."

SCHOOL ATTENDANCE

From the report of Mr. Raphael Marino, Attendance Officer, covering the period from January 17, 1921 to January 23, 1922 the following facts have been tabulated:

Number of cases reported by teachers (age 6 to 14)		149
Investigation		
Number of cases found to be truancy ..	49	
Number of cases found to be sickness ..	41	
Number of cases found to be lack of shoes and clothing	4	
Number of cases found to be due to carelessness of parents	28	
Number of cases to be excusable	9	
Number truants returned to school from street	18	
		149
Number cases reported by Superintendent		230

Investigation

Number of cases out from school or working without certificate	157	
Number of cases found over 16 years of age	7	
Number of cases returned to school ...	46	
Number of cases left town	7	
Number of cases from High school	9	
Number of cases from Evening school ..	4	
	<hr/>	230
Number of visits to schools		95

There were six court cases, of which three were put on probation, one committed to the Lyman School, one to the Worcester County Industrial School, and one defaulted.

No boys or girls at present are working without a proper certificate. Many other verbal complaints were received but not recorded.

STAMP SAVINGS

There has been a deplorable lack of interest in War Stamps Savings during the year 1921, only about \$250 having been saved through the agency of the schools in this way. With the recent changes in plan—discontinuance of the twenty-five cent and five dollar stamps—and the introduction of the ten cent stamp and the twenty dollar certificate—it is hoped that a greater result may follow in the future.

EMPLOYMENT CERTIFICATES ISSUED

Employment certificates	83	1,054	1,137
Home permits	29	18	47
Educational certificates, literate	172	2,201	2,373

REPAIRS

Carpentry

Minor routine repairs were made at the High, Stacy, Park, South, Plains District, Purchase Street, Oliver. Claflin, West Street, and Bear Hill schools. Contractors—Waters & Hynes.

Painting

Painting repairs were made as follows:

Plains Primary building was painted outside. The interior woodwork and blackboards at the Plains Grammar school, blackboards at the Plains Annex, some old style blackboards were reblacked at the Claflin, Park, Oliver street, Purchase Grammar, Purchase Primary schools.—Contractor—E. F. Porter.

Blackboards done over at Bear Hill. Contractor—T. E. Morse Co.

Mason Work

New cement platforms and other cement repairs were made at the Claflin school. Contractor—Peter Consigli.

Chimney and other repairs were made at the Hoboken school, inner walls and ceilings repaired at Hoboken, South and Purchase Grammar schools. Contractor—Roberto Costa.

Plumbing and Heating

The basement room towards School street in the Stacy school was outfitted as a cooking school, including gas piping and fixtures for 16 girls; the installation of individual cookers for 16 girls; the installation of a four foot soapstone sink with piping in of water, faucets etc.; connecting in of large cooking range; installation of a Pittsburgh hot water heater. Contractors—Clark Ellis & Sons.

A Solar Magee one-room furnace was installed in the

ground floor schoolroom in the Plains Annex. Contractor—F. A. Gould.

In addition there were the usual overhauling of heating systems, stoves and furnaces during the summer vacation and the usual amount of emergency repairs.

RECOMMENDATIONS

Accomplished

- I The following, previously recommended, have become accomplished facts during the year:—
 - A 1. The relocation of the cooking school in the George E. Stacy school.
 - B 2. The establishment of a practical arts shop for boys (in connection with the Continuation school).

Renewed

- II The following recommendations I respectfully renew:—
 - C 1. The South school should be remodeled and enlarged (as suggested somewhat in detail in the foregoing).
 - D 2. More room and more suitable room should be furnished in the Plains District.

New Recommendations

- III I recommend the following (for the near future):—
 - E 1. Steps should be taken at once looking toward more room for seventh and eighth grade pupils.
 - F 2. More room for High school.

Endorsements

- IV I earnestly recommend:—
 - G 1. The adoption of the junior high school organization for the George E. Stacy school.
 - H 2. The careful consideration of some means of utilizing the present school room during longer periods, such as the Gary plan, Fitchburg plan,

Beverly plan, or other alternate period, school-and-shop plan.

- I 3. I heartily endorse Prin. Quirk's suggestion and recommend that at least two more teachers be engaged for the High school (or ninth grade in a different organization) for the school year 1922-1923.

New Projects

V I propose the following:—

- J 1. The careful revision of the High school course of study and certain suggestions of the Principal and the Supervisor of Music.

- K 2. The careful revision of the course of study for the grades and the inclusion in such revised course of study of suitable physical exercises in the Stacy school (as suggested by Prin. Beaudry) and in all other grades.

- L 3. I heartily endorse Mr. Beaudry's recommendation that Manual Training be given to the eighth grade and (I would add) eventually to the seventh grade.

In conclusion I take this opportunity to thank your Committee for continued courtesies and cooperation shown me and my associates in the work during the year under review; and I thank my co-workers for the spirit of courtesy and helpfulness shown during the last year as in previous years.

All of which is respectfully submitted.

ALMORIN O. CASWELL,
Superintendent of Schools.

Milford, Mass., February 3, 1922.

Report of the School Physicians.

To the School Committee of Milford:—

The customary statistics showing the results of our annual inspection of the schools of Milford for the year 1921 are presented herewith, in a somewhat more condensed form than usual, covering all the usual points, but without differentiating the work of the two examiners.

TABLE I—SHOWING THE GRADE OF DEFECTS

	Primary	Grammar	High	Total	Per Cent
Whole number of pupils ..	1344	923	346	2613	
No. normals	93	131	92	316	12
No. having only slight defects	496	242	88	826	32
No. having serious defects ..	755	550	166	1471	56

TABLE II—SHOWING THE NATURE OF DEFECTS

	Primary	Grammar	High	Total	Per Cent
Whole number of pupils ..	1344	923	346	2613	
No. having mouth and teeth defects	852	606	205	1663	63
No. having nose and throat defects	1009	520	91	1620	62
No. having miscellaneous de- fects	130	85	61	276	11

Wonderful results would surely follow the medical inspection of school children if the parents would immediately take the child and the school Physician's notification card to their family Physician or Dentist, as the case might be, and be guided by his advice. Too frequently, instead, no serious consideration is given to the subject, and many unfortunate children are allowed to go on year after year, suffering from grave physical defects which might be

remedied if the school Physician's warning had been observed.

Particularly does this apply to those children who experience difficulty in keeping up with their class, and who therefore fail of promotion. In many of these cases defective vision or imperfect hearing is the cause of the failure, and the child is called dull, when he is really as bright as the others. Even a grumbling toothache or an itching scalp is quite sufficient to distract a child's attention from his studies and leave him at a disadvantage.

Many parents and apparently all of the physicians and dentists are co-operating with us in our work, and the improvement in the appearance of some of the children, and also in their health and scholarship is both striking and gratifying. Through the Dental Clinic and by the help of the school Nurse a considerable number of such children have had their teeth cared for without expense to them; and we regret that we have no funds available to obtain the needed operations and glasses for deserving cases where the parents are unable to procure them.

Respectfully submitted,

J. M. FRENCH, M. D.

J. V. GALLAGHER, M. D.

School Physicians.

Report of Dental Clinic.

Milford, Mass., February 1, 1922.

Mr. Almorin O. Caswell,
Superintendent of Schools,
Milford, Mass.

Dear Sir:—

In January 1921 I took up the work as supervisor of the Red Cross Dental Clinic recently begun by my predecessor, the first supervisor, Dr. Herbert F. Wright.

I present the following report of progress of the clinic since that day to the present. The work followed the system established at the first which was similar to that carried on in the Forsythe Dental Infirmary of Boston, Mass.

The total number of patients from the beginning amount to 1537. Included among these were 1016 extractions of temporary teeth; 259 extractions of permanent teeth; 123 pulp treatments; 389 fillings in temporary teeth; 1084 fillings in permanent teeth; 488 prophylactic treatments; making a total of 3359 operations.

It is my opinion, having seen the remarkable improvement made in the condition of the teeth of the children treated, that the work should continue in the future.

Respectfully yours,

JOHN A. CLEARY, D. M. D.
Supervisor

Secretary, Madeline H. Burke.

Treasurer, Duane H. Clarridge.

Class Colors—Purple and Gold.

Class Flower—Jack Rose.

Motto—He Conquers Who Endures.

CLASS ODE.

Tune—Good Luck March.

Forth to life we go ; scarce the way we know,
 As we leave our dear old Milford High,
 Sad our parting tears, gone the happy years ;
 School days past, new ways now we must try,
 We will enter life, well prepared for the strife ;
 Our kind teachers have labored long,
 In success we trust, and to win we must,
 For in knowledge we're girded strong.

CHORUS.

Farewell, school days, as on we go,
 May success our pathway strew ;
 We'll know you're a friend, as our ways we wend,
 Farewell, Alma Mater true !
 Now our life awaits with its wide open gates,
 For it's now we must answer its call,
 With ambitions high, life's ideals we'll try,
 On our valor may no evil fall !
 It is for the right that we will fight ;
 We are strong and we will win !
 With our spirits high, we will do or die,
 Nor e'er shrink from the battle's din.
 Now before we part, courage fill each heart,
 For we all must go forward alone,
 We must work to the end, our class to defend,
 And we must conquer, yes, every one.
 Whate'er we're told of the glittering gold,
 Which so often does crown success,
 It is not alone the gold we've won
 But fair honor our efforts will bless.

—*Ruth Evelyn Tyndall.*

TOWN RECORDS.

1921.

TOWN RECORDS, 1921.

WARRANT FOR THE ANNUAL TOWN MEETING MARCH 7, 1921.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

To either constable in the town of Milford, in said county,
Greeting :

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in elections and in town affairs, to meet at the Town Hall, in said Town, on Monday, the seventh day of March, A. D., 1921, punctually at 5.45 o'clock in the forenoon, to act upon the following articles, namely: —

(The polls may be closed at four o'clock in the afternoon on said day of meeting)

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose all necessary town officers, a town clerk, town treasurer, tax collector, auditor, three selectmen, highway surveyor, (for one year,) one assessor, (three years), one assessor, (one year), one overseer of the poor, (three years), one sewer commissioner, (three years), two members of the school committee, (three years), one member of the board of health, (three years), two trustees of town library, (three years), two trustees of Vernon Grove Cemetery, (three years), one park commissioner, (three years), and five constables, (one year), to be voted for on ballots prepared and furnished in accordance with the provisions of Chapter 835, Acts of 1913, and Acts in amendment thereto.

Also upon said ballots the voters shall give in their votes "Yes" or "No" in answer to the following questions:

"Shall Chapter 240, Acts of 1920, An Act to permit, un-

der public regulation and control, certain sports and games on the Lord's Day, be accepted by this town ? ”

“Shall licenses be granted for the sale of certain non-intoxicating beverages in this town ? ”

Article 3. To hear and act upon the report of the selectmen, town clerk, town treasurer, tax collector, assessors, overseers of the poor, sewer commissioners, auditor, school committee, trustees of town library, trustees of Vernon Grove Cemetery, park commissioners, highway surveyor, chief of police, engineers of the fire department, town solicitor, inspector of animals, inspector of wires, inspector of plumbing, sealer of weights and measures, and any other officers or committees of said town.

Article 4. To raise and appropriate such sum or sums of money as may be necessary to defray town expenses for the financial year ending December 31, 1921.

Article 5. To determine when all taxes for the year 1921, shall be due and payable, the time from which interest on unpaid taxes of said year shall be charged, and the compensation of the collector of taxes for the year ensuing.

Article 6. To see if the town will vote to raise and appropriate the sum of One Hundred and Sixty-five Dollars, (\$165.00), toward defraying the expenses of Memorial Day.

Article 7. To see if the town will vote to authorize the selectmen to take charge of all legal proceedings for or against the town.

Article 8. To see if the town will vote to authorize the treasurer, with the approval of the selectmen, to borrow money on and after January 1, 1922, in anticipation of the revenue of the financial year beginning January 1, 1922.

Article 9. To see if the town will vote to increase the salary of the highway surveyor or take any action in relation thereto.

Article 10. To see if the town will vote to adopt the following By-Law: “In all recommendations submitted to the town by the Finance Commission relative to appropriations, a two-thirds vote of those voting shall be necessary to amend,

changed or otherwise alter said recommendations;" or take any action in relation thereto.

Article 11. To see if the town will vote to raise and appropriate the sum of Twenty-five Hundred Dollars (\$2,500.00) for the purpose of rebuilding East Street, from the corner of Beach and East Streets, to the property of the Ferrucci Heirs, on said East Street, and for the building of a cobble-stone sidewalk on said street, or take any action in relation thereto.

Article 12. To see if the town will vote to raise and appropriate the sum of Fifteen Hundred Dollars (\$1,500.00) for repairs to Fells Avenue, or take any action in relation thereto.

Article 13. To see if the town will vote to raise and appropriate the sum of One Thousand Dollars (\$1,000 00), for the maintenance of a School Dental Clinic, the same to be expended under the supervision of the School Committee, or take any action in relation thereto.

Article 14. To see if the town will vote to raise and appropriate the sum of Five Hundred Dollars (\$500.00) to pay to the Trustees for County Aid to Agriculture, "Worcester County Farm Bureau," in accordance with the provisions of, and for the purpose of, Chapter 273, Acts of 1918, or pass any vote or votes in relation thereto.

Article 15. To see if the town will vote to choose a Director; in accordance with the provisions of Chapter 273, of Acts of 1918, Section 1, to serve one year, or pass any vote or votes in relation thereto.

Article 16. To see if the town will vote to raise and appropriate a sum of money for the purpose of erecting and maintaining a Public Comfort Station, or take any action in relation thereto.

Article 17. To see if the town will vote to raise and appropriate the sum of Three Thousand Dollars (\$3,000 00) for the purpose of re-building Spruce Street, from School Street to Congress Street, or take any action in relation thereto.

Article 18. To see if the town will vote to raise and appropriate the sum of Four Thousand Dollars (\$4,000.00) for

the purpose of repairing Water Street, from South High Street to the Hopedale Town line, or take any action in relation thereto.

Article 19. To see if the town will vote to raise and appropriate the sum of Three Thousand Dollars, (\$3,000.00) for the purpose of re-building South Main Street, from Depot Street to the Hopedale Town line, or take any action in relation thereto.

Article 20. To see if the town will vote to raise and appropriate the sum of Five Hundred Dollars (\$500.00) for the purpose of building a sidewalk on the southerly side of Pleasant Street, from Congress Street to Gibbon Avenue, or take any action in relation thereto.

Article 21. To see if the town will vote to raise and appropriate the sum of One Hundred and Twenty-five Dollars, (\$125 00) for the purpose of locating street lights on East Main Street, from Beaver Street to the Holliston town line, or take any action in relation thereto.

Article 22. To see if the town will vote to raise and appropriate the sum of Twenty-five Hundred Dollars (\$2,500.00) for the purpose of repairing Glines Avenue, and constructing sidewalks on said avenue, or take any action in relation thereto.

Article 23. To see if the town will vote to raise and appropriate the sum of Fifteen Hundred Dollars, (\$1,500 00) for the purpose of constructing a sidewalk on the westerly side of East Main Street, from the end of the present sidewalk at Supple Square, so-called, to Meade Street, or take any action in relation thereto.

Article 24. To see if the town will vote to raise and appropriate the sum of Twelve Thousand Five Hundred Dollars, (\$12,500.00) or will authorize the town treasurer to issue notes or bonds of the town to an amount not exceeding Twelve Thousand Five Hundred Dollars, (\$12,500.00), at a rate of interest not exceeding six per cent per annum, payable semi-annually, for the purpose of the construction, maintenance and

operation of sewers in the Town of Milford, or take any action in relation thereto.

Article 25. To see if the town will vote to raise and appropriate the sum of Seven Thousand Dollars (\$7,000.00) for the maintenance of its sewerage system, or take any action in relation thereto.

Article 26. To see if the town will vote to raise and appropriate the sum of Eight Thousand Dollars (\$8,000.00) for the construction of additional drainage on Central Street, in said Town of Milford, or take any action in relation thereto.

Article 27. To see if the town will vote to increase the compensation of the Board of Assessors from Three Dollars and Fifty Cents (\$3.50) to Five Dollars (\$5.00) per diem, or take any action in relation thereto.

Article 28. To see if the Town will vote to make repairs on that portion of Dilla Street extending westerly from the Macuen Ice House, so-called, and raise and appropriate the sum of One Thousand Dollars (\$1,000.00) or any other sum therefor, or take any action with respect to the repair of said street.

And you are hereby directed to serve this warrant by posting up attested copies thereof at each of the Public Meeting Houses and at the Post Office in said town; also cause attested copies to be published in The Milford Daily News and Milford Gazette, newspapers published in said town, two Sabbaths at least before the time set for said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the clerk of said town, at the time of meeting aforesaid.

Given under our hands at Milford, this 15th day of February, A. D. 1921.

THOMAS J. NUGENT,
JOHN H. CUNNINGHAM,

Selectmen of Milford.

A true copy, attest:

JEREMIAH T. MURPHY,

Constable of Milford.

COMMONWEALTH OF MASSACHUSETTS.

Milford, March 7, 1921.

Worcester, ss.

Pursuant to the within warrant, I have notified the inhabitants of the town of Milford, herein described, to meet at the time and place, and for the purposes within mentioned, by posting up attested copies of this warrant at each of the Public Meeting Houses and at the Post Office in said town, and I have likewise caused attested copies of this warrant to be published in the Milford Daily News and Milford Gazette, newspapers printed in said Town, two Sabbaths before the time set for said meeting.

Attest:

JEREMIAH T. MURPHY,

Constable of Milford.

A true copy of the warrant and the officer's return thereon.

Attest:

DENNIS J. SULLIVAN,

Town Clerk.

ANNUAL TOWN MEETING, MARCH 7, 1921.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

Milford, March 7, 1921.

At a legal meeting of the inhabitants of the town of Milford, qualified by law to vote in elections and in town affairs, holden this seventh day of March, A. D. 1921, at 5.45 o'clock in the forenoon, the said inhabitants proceeded as follows:—

The meeting was called to order by the town clerk who read the warrant and the officer's return thereon.

Under Article 1. The meeting made choice of John T. McLoughlin as moderator, the voting list being used.

One ballot was cast which was for John T. McLoughlin.

The moderator was sworn to a faithful performance of his duties by the town clerk.

The polls were opened at 5.55 o'clock P. M.

Voted: To close the polls at eight o'clock P. M.

Dominick J. Lang and Harold K. Bullard appointed by the selectmen as tellers to check the voting lists were sworn to a faithful performance of their duties by the town clerk

William G. Pond and Joseph J. Clancey, ballot clerks, and George V. Larkin and John E. Roche, deputy ballot clerks, appointed by the selectmen, were sworn to a faithful performance of their duties by the town clerk.

Voted: That after the completion of action under Article 2, the meeting be adjourned until Wednesday, March 9, 1921, at eight o'clock P. M. in Town Hall.

Due notice having been given the polls at eight o'clock P. M. were declared closed.

During the voting the ballot box was opened, by the unanimous consent of the moderator and town clerk, six times for the purpose of taking out, sorting and counting the ballots, first at 11.55 A. M. when it registered 930, then at 2.45 P. M. when it registered 1598, then at 4.25 P. M. when it registered 2102, then at 5.35 P. M. when it registered 2530, then at 7.45 P. M. when it registered 3460, and at the close of the polls at 8 P. M. when it registered 3505.

The ballot box count and the count of the checkers and ballot clerks both agreed. Lists at the polls 3505. Lists at the tables 3505.

Males voting, 2218. Females voting, 1287.

The names of those on the lists of voters which were checked and audibly counted were found to be Males 2218. Females 1287.

The following tellers appointed by the selectmen were sworn to a faithful performance of their duties by the town clerk:

Harry L. Webber, M. Henry DeCoste, Walter B. McFarland, Francis Hickey, Arthur J. Curley, George E. Stanley, Patrick J. O'Connor, James F. Baxter, Dennis P. Flynn, Hen-

ry Aspesi, Patrick H. Rabbitt, Albert W. Jones, William S. Dineen, Ernest L. Schultz, George L. Hickey, William H. Curtin, Michael T. Tynan, Thomas J. Ryan, George V. Sennott, Archibald Boyd, Arthur Sheedy, Thomas F. Moore, John F. Cuddihy, Antonio DeMatteis, Albert Condon, George S. Whitney, Cornelius J. Callahan, Dennis V. Ryan, Garden W. Rae, J. Warren Richardson, John Curley, Thomas H. Brennan.

ADJOURNED TOWN MEETING, MARCH 9, 1921.

COMMONWEALTH OF MASSACHUSETTS.

Worcester ss.

Milford, March 9, 1921.

In pursuance to a vote passed at the town meeting March 7, 1921, the inhabitants of the Town of Milford met in Town Hall and proceeded as follows :

The meeting was called to order by the Moderator at eight o'clock p. m.

Under Article 2, the following officer was elected : Tree Warden, Patrick F. Fitzgerald. The clerk being instructed to cast one ballot for Patrick F. Fitzgerald.

Article 3. Voted : To accept the reports of all town officers as printed in the annual town reports.

The Committee on a Public Comfort station made a verbal report which was accepted as a report of progress

The Committee to investigate the matter of a Municipal Coal Pocket reported the following recommendations :—

1. That the several departments of the town place their orders for coal for the ensuing year with the Selectmen, who shall make a contract with some responsible agent to deliver

coal, at such times and in such quantities as the several departments can handle it

Each department assuming cost of coal, freight and delivery, paying for the same out of their regular appropriations.

2. That the present committee be continued for the purpose of further investigating the "Pocket Problem" for the better handling, storing, and distribution of coal.

Signed,

O. F. CROUGHWELL,

Secretary of Committee.

Voted : To accept and adopt the report of the Committee.

The committee on street signs made a report which was accepted and adopted, and it was Voted :

To raise and appropriate the sum of Six Hundred Dollars (\$600.00) for street signs, the same to be expended under the supervision of the Selectmen.

Voted to pass over the article.

Article 4. William A. Murray, Secretary of the Finance Commission, submitted the following report for the Commission:

HIGHWAYS.

We recommend \$40,000 00 for highways this year, an increase of \$10,000.00 over 1920. The Highway Surveyor states that with this increased appropriation he can take care of all streets for which repairs are asked for in the Town Warrant and place them in good condition. For this reason we recommend that Articles 11, 17, 18, 19, 22 and 28 be passed over. Similarly \$2,550.00 has been added to sidewalks and Articles 11, 20, 22, 23 should be passed over.

SCHOOL DEPARTMENT.

The School Committee requested for 1921 the sum of \$143,606.44; \$20,000.00 of the increased amount was due to a proposed increase in teachers' salaries. We recognize the necessity of increases to some of the teachers, particularly those in the grades and the lower paid high school teachers. Having regard to the finances of the town and to the needs of other departments, we feel that \$12,000.00 is a reasonable increase at this time. Accordingly we have recommended for Schools \$8,000.00 less than the department requested, viz., \$135,606.44.

TOWN PARKS.

We recommend that all persons or organizations using the Town Park in furnishing public amusements for profit, excepting baseball or football contests, donate to the Park Commissioners, a reasonable contribution for the maintenance of the Park.

TOWN WARRANT.

Article 9. We recommend the salary of the Highway Surveyor be increased \$400.00 per year.

Article 10. Several suggestions have been made to the Finance Commission relative to some system being adopted which would act as a check or veto on the items of the Town Budget. The chief evil in the town meeting form of government lies in the fact that those interested in a proposition can, by various methods, pack the meeting and carry through any appropriation they may see fit.

The town meeting allows its members to vote on propo-

sitions in which they themselves have a personal interest, which adds to the evil, and makes it easy to saddle on the town the amount desired. Rather than force upon the town any legislative change in the present form of government, we feel that if the by-law recommended becomes effective, it will safeguard the town as a whole against unwarranted appropriations, and at the same time protect any citizen who has reasonable grounds for demanding use of the town's money.

The Finance Commission, through the Moderator who appoints them, is directly answerable to the town meeting.

Article 14. We recommend the sum of \$200.00 be appropriated under this article.

Article 21. We recommend the passage of this article.

Article 24. We recommend the passage of this article.

Article 25. In the general appropriations we have recommended the sum of \$4,000.00 for sewer maintenance. Accordingly this article should be passed over.

Article 27. We recommend that the salary of the Assessors be increased to \$4.00 per day.

If Articles 9 and 27 be acted on favorably, we recommend that \$1000.00 be added to the salaries.

The Overseers of the Poor have requested an increase of \$500.00 to their salaries. We are informed that to do so, an article in the warrant must be inserted for that purpose. As there is no such article in the present warrant, we can take no action on the matter at this time.

Respectfully submitted,

LEWIS HAYDEN, Chairman,

WILLIAM A. MURRAY, Secretary.

JOHN H. EGAN,
FRANCIS G. KERR,
JOHN H. CUNNIFF,
Selectmen of Milford.

A true copy. Attest:

DENNIS J. SULLIVAN
Town Clerk.

WARRANT FOR TOWN MEETING, JUNE 20, 1921.
COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

To either Constable of the Town of Milford in said county,
Greeting:

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in elections and in town affairs, to meet at the Town Hall in said town, on Monday, the twentieth day of June, 1921, punctually at eight o'clock in the evening, to act upon the following articles, namely:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the town will vote to amend the vote passed under Article 24 of the warrant of the Annual Town Meeting held on March 7 and 9, 1921, so as to read as follows:

Voted: That the town appropriate the sum of Twelve Thousand Five Hundred Dollars (\$12,500.00) for sewer construction, and that the treasurer, with the approval of the

selectmen, he and hereby is authorized to borrow said sum and to issue bonds or notes therefor, said bonds or notes to be payable in accordance with the provisions of Section 19, of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than thirty years, or at such earlier dates as the treasurer and selectmen may determine.

And you are hereby directed to serve this warrant by posting up attested copies at each of the Public Meeting Houses and at the Post-Office in said Town, also cause an attested copy to be published in the Milford Daily News a newspaper published in said Town, Two Sabbaths at least before the time set for said meeting.

Hereof, Fail Not, and make due return of this warrant with your doings thereon to the clerk of said town at the time of meeting aforesaid.

Given under our hands at Milford, this 10th day of June, A. D., 1921.

JOHN H. EGAN,
FRANCIS G. KERR,
JOHN H. CUNNIFF,

Selectmen of Milford.

A true copy. Attest :

ERNEST E. O'BRIEN,
Constable of Milford.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

Milford, June 20, 1921.

Pursuant to the within warrant I have notified the inhabitants of the town of Milford herein described, to meet at the time and place and for the purposes within mentioned, by posting up attested copies of this warrant at each of the Public Meeting Houses and at the Post Office in said town, and I have likewise caused an attested copy of this warrant to be published in the Milford Daily News, a newspaper printed in said town, two Sabbaths before the time set for said meeting.

Attest :

ERNEST E. O'BRIEN,
Constable of Milford.

A true copy of the warrant and the officer's return thereon.

Attest:

DENNIS J. SULLIVAN,
Town Clerk.

TOWN MEETING, JUNE 20, 1921.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

Milford, June 20, 1920.

In pursuance to the foregoing warrant the inhabitants of the town of Milford, qualified to vote in elections and in town affairs, met in Town Hall in said town on Monday, the twentieth day of June, A. D. 1921, punctually at eight o'clock in the evening, and were called to order by the town clerk who read the warrant and the officer's return thereon.

Under Article 1. The meeting made choice of John T McLoughlin as moderator, the vote being unanimous.

Article 2. Voted: That the town appropriate the sum of Twelve Thousand Five Hundred Dollars (\$12,500.00) for sewer construction, and that the treasurer, with the approval of the selectmen, be and hereby is authorized to borrow said sum and to issue bonds or notes therefor, said bonds or notes to be payable in accordance with the provisions of Section 19, of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than thirty years, or at such earlier dates as the treasurer and selectmen may determine.

Yes. 25. No, 0.

Voted: To dissolve the warrant.

DENNIS J. SULLIVAN,

Town Clerk.

VITAL STATISTICS.

Parents and others are requested to carefully examine the following lists and if any errors or omissions are discovered report them at once to the town clerk, that the record may be corrected, as it is of importance that the record of Vital Statistics should be complete. Herewith are extracts from the General Laws of Massachusetts, Chapter 46.

SECTION 3. Every physician, or hospital medical officer registered under Section nine of Chapter one hundred and twelve, in this chapter called officer, shall keep a record of the birth of every child in cases of which he was in charge, showing date and place of birth, the name, if any, of the child, its sex and color, the name, age, birthplace, occupation and residence (including the street number, if any, and the ward number, if in a city) of each parent, the maiden name of the mother and the name of the physician or officer, if any, personally attending the birth. If the child is illegitimate, the name of and other facts relating to the father shall not be set forth except upon written request of both the father and mother. Said physician or officer shall, within fifteen days after such birth, mail or deliver to the clerk or registrar of the town where such birth occurred, a report stating the facts herein above required to be shown on said record and also the said written request, if any; provided, that if said report is not so made within forty-eight hours after such birth, said physician or officer shall, within said forty-eight hours, mail or deliver to said clerk or registrar a notice stating the date and place of the birth, the street number, if any, the ward number, if in a city, and the family name. Upon presentation to him of a certificate of the town clerk stating that any such birth has been duly reported, the town treasurer shall pay to such physician or officer a fee of twenty-five cents for each birth so reported. Any physician or any such officer violating any pro-

vision of this section shall forfeit not more than twenty-five dollars.

SECTION 4. A member or servant of a family in which a child is born, having knowledge of the facts required for record relative to such births, shall furnish the same upon request of the clerk of the town where such child was born or its parents reside, or of any person authorized by him. Such member or servant refusing to furnish such facts shall be punished by fine not exceeding ten dollars.

SECTION 6. Parents, within forty days after the birth of a child, and every householder, within forty days after a birth in his house, shall cause notice thereof to be given to the clerk of the town where such child is born. Every householder in whose house a death occurs and the oldest next of kin of a deceased person in the town where the death occurs shall, within five days thereafter, cause notice thereof to be given to the board of health, or, if the selectmen constitute such board, to the town clerk. The keeper, superintendent or person in charge of a workhouse, house of correction, prison, reformatory, hospital, almshouse or other institution, public or private, which receives inmates from within or without the limits of the town where it is located shall, when a person is received, obtain a record of all the facts which would be required for record in the event of the death of such person, and shall, on or before the fifth day of each month, give notice to the town clerk of every birth and death among the persons under his charge during the preceding month.

Blanks for returns of births and deaths may be obtained at the office of the town clerk.

DENNIS J. SULLIVAN,

Town Clerk.

Respectfully submitted,

DENNIS J. SULLIVAN,

Town Clerk.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

To either constable in the town of Milford, in said county,
Greeting :

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in elections and in town affairs, to meet at the Town Hall, in said Town, on Monday, the sixth day of March, A. D , 1922, punctually at 5.45 o'clock in the forenoon, to act upon the following articles, namely: —

(The polls may be closed at four o'clock in the afternoon on said day of meeting)

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose all necessary town officers, a town clerk, town treasurer, tax collector, auditor, three selectmen, highway surveyor, (for one year,) one assessor, (three years), one overseer of the poor, (three years), one sewer commissioner, (three years), two members of the school committee, (three years), one member of the board of health, (three years), two trustees of town library, (three years), two trustees of Vernon Grove Cemetery, (three years), one trustee of Vernon Grove Cemetery, (one year to fill vacancy) one park commissioner, (three years), and five constables, (one year), to be voted for on ballots prepared and furnished in accordance with the provisions of Chapter 54, of the General Laws of Massachusetts, and acts in amendment thereof and addition thereto.

Also upon said ballots the voters shall give in their votes 'Yes' or 'No' in answer to the following question :

"Shall licenses be granted for the sale of certain non-intoxicating beverages in this town ? "

Article 3. To hear and act upon the report of the select-

men, town clerk, town treasurer, tax collector, auditor, assessors, overseers of the poor, sewer commissioners, school committee, trustees of town library, trustees of Vernon Grove Cemetery, park commissioners, highway surveyor, chief of police, engineers of the fire department, town solicitor, inspector of wires, inspector of animals, inspector of plumbing, sealer of weights and measures, and any other officers or committees of said town.

Article 4. To raise and appropriate such sum or sums of money as may be necessary to defray town expenses for the financial year ending December 31, 1922.

Article 5. To determine when all taxes for the year 1922 shall become due and payable, the time from which interest on unpaid taxes of said year shall be charged, and the compensation of the collector of taxes for the year ensuing.

Article 6. To see if the town will vote to raise and appropriate the sum of Four Hundred Dollars (\$400.00) towards defraying the expenses of Memorial Day.

Article 7. To see if the town will vote to authorize the selectmen to take charge of all legal proceedings for or against the town.

Article 8. To see if the town will vote to authorize the treasurer, with the approval of the selectmen, to borrow money on and after January 1, 1923, in anticipation of the revenue of the financial year, beginning January 1, 1923.

Article 9. To see if the town will vote to create a planning board, as required under the provisions of Section 70, Chapter 41, General Laws of Massachusetts, or take any action in relation thereto.

Article 10. To see if the town will vote to raise and appropriate the sum of Sixty-five Thousand Dollars (\$65,000.00), or will authorize the town treasurer to issue bonds or notes to an amount not exceeding Sixty-five Thousand Dollars (\$65,000.00), at a rate of interest not exceeding four and one-half per cent per annum, payable semi-annually, for the purpose of the erection, alteration and repair of a school building in the

south end of the town, and the purchase of land necessary therefor, or take any action in relation thereto.

Article 11. To see if the town will vote to increase the salaries of the overseers of the poor, and establish the same as follows: Chairman, Five Hundred Dollars (\$500.00), other members, Two Hundred and Fifty Dollars (\$250.00), each, or take any action in relation thereto.

Article 12. To see if the town will vote to establish a by-law or by-laws, to provide for the limitation of particular classes of buildings to specified districts or zones as provided for in General Laws, Chapter 40, Section 25, or take any action in relation thereto.

Article 13. To see if the town will vote to establish a by-law or by-laws to provide for the appointment and duties of an appropriation, advisory or finance committee as provided in General Laws, Chapter 39, Section 16, or take any action in relation thereto.

Article 14. To see if the town will vote to contribute to the cost of operation and fixed charges, within the town of Milford, of the line of the Milford and Uxbridge St. Ry. Co., appropriate money for the same, and act on all matters relating thereto.

Article 15. To see if the town will vote to raise and appropriate the sum of Five Hundred Dollars (\$500.00), for the purpose of extending its system of sewerage from the junction of Reade and Dominic streets, along said Dominic street in an easterly direction, or take any action in relation thereto.

Article 16. To see if the town will vote to authorize the selectmen to contract and agree in writing for and in behalf of the town of Milford, to contribute one-third of the money, labor or materials toward the cost of laying out and constructing of a certain part of Medway street within the town of Milford, and for this purpose see if the town will vote to raise and appropriate the sum of Ten Thousand Dollars (\$10,000.00), or will authorize the town treasurer to issue bonds or notes to an amount not exceeding Ten Thousand Dollars (\$10,000.00), at a

rate of interest not exceeding five per cent per annum, payable semi-annually, or take any action in relation thereto.

Article 17. To see if the town will vote to raise and appropriate the sum of Two Hundred Dollars (\$200.00), to pay to the Trustees for County Aid to Agriculture, "Worcester County Farm Bureau," in accordance with the provisions of, and for the purposes of Chapter 128, General Laws of Massachusetts, or pass any vote or votes in relation thereto.

Article 18. To see if the town will vote to choose a director, in accordance with the provisions of Chapter 128, General Laws of Massachusetts, to serve one year, or pass any vote or votes in relation thereto.

Article 19. To see if the town will vote to authorize the selectmen to renew the town's contract with the Milford Electric Light & Power Co. for street lighting, or take any action in relation thereto.

Article 20. To see if the town will vote to authorize the selectmen to appoint a committee of citizens to investigate and report at the next town meeting on the possibility of establishing a town forest, and to appropriate the sum of Twenty-five Dollars (\$25.00), for the use of the committee for this purpose.

Article 21. To see if the town will vote to raise and appropriate the sum of Two Thousand Dollars (\$2000 00) for the maintenance of a school dental clinic, the same to be expended under the supervision of the school committee, or take any action in relation thereto.

Article 22. To see if the town will vote to establish and maintain a dental clinic, raise and appropriate money for said purpose, or take any action in relation thereto.

Article 23. To see if the town will vote to raise and appropriate a sum not exceeding Sixty-five Thousand Dollars (\$65,000 00), and will authorize the town treasurer to issue notes or bonds to an amount not exceeding Sixty five Thousand Dollars (\$65,000.00), at a rate of interest not exceeding

five per cent per annum, payable semi-annually, for the purpose of further constructing its system of sewerage, with particular reference to the enlargement of the sewage disposal works, or take any action in relation thereto.

Article 24. To see if the town will vote to raise and appropriate the sum of Two Hundred Fifty Dollars (\$250.00) for the purpose of installing a glass clock face on the easterly side of the town clock located in the Town Hall tower, or take any action in relation thereto.

Article 25. To see if the town will vote to raise and appropriate the sum of Eight Hundred Dollars (\$800.00), for the purpose of repairing Court street, or take any action in relation thereto.

Article 26. To see if the town will vote to raise and appropriate the sum of One Thousand Dollars (\$1000.00), for the purpose of rebuilding sidewalk on the easterly side of East Main street, from Cook street to Supple square, or take any action in relation thereto.

Article 27. To see if the town will vote to sell the parcel of land located on the easterly side of Pearl street and acquired by deed of First Universalist Society in Milford, Mass., deed dated April 9, 1900, and recorded with Worcester District Deeds, Book 1648, Page 215, and authorize the selectmen to sign, execute and deliver the proper deed of conveyance or take any action in relation thereto.

Article 28. To see if the town will vote to raise and appropriate the sum of One Thousand Dollars (\$1000.00), for the purpose of repairing Whitney street, or take any action in relation thereto.

And you are hereby directed to serve this warrant by posting up attested copies thereof at each of the Public Meeting Houses and at the Post-Office in said town, also cause attested copies to be published in Milford Daily News and Milford Gazette, newspapers published in said town, Two Sabbaths at least before the time set for said meeting.

Hereof fail not, and make due return of this warrant with

your doings thereon to the clerk of said town, at the time of meeting aforesaid.

Given under our hands at Milford, this 21st day of February, A. D. 1922.

JOHN H. EGAN,
FRANCIS G. KERR,
JOHN H. CUNNIFF,
Selectmen of Milford.

A true copy. Attest:

ERNEST E. O'BRIEN,
Constable of Milford.
